THE OSLER LIBRARY
MCGILL UNIVERSITY

THE JACKSON SANATORIUM

At Dansville, Livingston Co., New York.

This Health Institution is open all the year, and receives patients suffering from Non-Contagious, Chronic and Acute Diseases.

The attention of the Medical Profession is called to some of the Advantages it offers:

1. **It is owned and managed by Physicians**, graduates of leading regular colleges of this country, who are personally devoted to the medical and general care of their patients.

2. **The location** is on a wooded mountain slope, overlooking the town and commanding extensive and beautiful views of fertile hills and valleys—air dry and pure; subsoil gravelly, malaria unknown. Springs, issuing from rocky heights far above any possible source of contamination, supply the Sanatorium with water equal in value to that of Bedford springs, in its effects on kidneys and bladder.

3. **The Sanatorium main building** is of brick and iron construction, absolutely fire proof, and built with special reference to sanitary requirements. It has light, ventilated rooms and halls, heated by steam; open grates in public and many private rooms; a safety elevator, telegraphic and telephonic facilities, broad piazzas, and perfect sewerage (water closets all being in an annex, separate from building, but connected by corridors). Best of modern appliances in culinary department; abundant, varied and well prepared dietary. A spacious sunny corridor (with open fireplace, plants and reading tables), connects the main building with an attractive chapel.

Nine home-like cottages on the grounds. Good accommodations for 300 patients.

4. **Treatment**, aside from the regulation of daily life, comprises massage, Swedish movements, electricity in galvanic, faradic and statical forms, with electric baths, inunction, lavage and gavage, and all forms of water applications, including Charcot's douches, Turkish, Russian and Roman baths, and the Moliere Thermo-Electric bath, the latter of signal value in rheumatism, gout, Bright's disease, malaria, etc. As little medicine is given as possible. Out-door life, summer and winter, a special feature. Particular attention given to diet in meeting the necessities of individual cases. Prescribed diet list in cases of Bright's disease, lithomia, dyspepsia, neurasthenia, obesity, etc.

5. Physicians can send patients for rest, change of scene and associations, special diet, massage, electricity, water treatment, or for the general regular regime and benefits of institution life, with the assurance that they will receive scientific care and treatment, and enjoy the advantages without the disadvantages of home. References from leading physicians on application.

6. **Accessibility.** One night's ride from New York City, Philadelphia or Baltimore. Fifteen hours from Boston or Washington. On main line Delaware, Lackawanna & Western Railroad, and on branch of Erie Railroad, via Avon, from New York, Rochester or Buffalo.

7. **Prices Moderate.** Send for circulars, views and testimonials.

BUSH'S FLUID FOOD, BOVININE,

The Vital Principles of Beef Concentrated.

The juices of Fresh Beef combined with pure Albuminoids, forming a perfect Food, rich in nitrogenous constituents and wholly free from insoluble elements, containing no medication whatever, being a highly condensed nutriment, rapidly assimilated by the weakest digestive organs, capable of sustaining life for an indefinite period, and adapted to the wants of humanity from infancy to old age.

In Wasting Diseases it supplies the tissues with new and vitalized blood, and stimulates the system to expel all poisonous and irritating accumulations most effectually. It is the only Food that will satisfy the craving hunger of Consumptives. Puny Infants and Children thrive wonderfully from its use.

As a **Raw Food Extract** in which the Albuminous portions are uncoagulated by heat, thereby rendering it easily absorbed by the enfeebled gastric forces, it stands unique before the world. Sample Bottles to Physicians on Application.

ALPHA

—AND THE—

OMEGA

CONTINUOUS FLOW SYRINGES.

All Hard Rubber Pipes and Fittings.

ADVANTAGES.

The "ALPHA" and the "OMEGA" SYRINGES are perfectly simple in construction.

They have no more parts than the old style or ordinary Syringes.

They entirely obviate the intermittent, and, in many cases, painful action of Pump Syringes.

They absolutely prevent the admission and consequent dangerous injection of air, so common with all intermittent or old style Syringes.

UNLIKE ALL FOUNTAIN, RUBBER BAG OR PUMP SYRINGES, the flow is not only continuous, but can be made either GENTLE or STRONG at the will of the user, the pressure of the thumb and forefinger being sufficient to produce a full stream.

THE STEADY FLOW can be increased, lessened or stopped at will.

THE CONTINUOUS FLOW of the injecting fluid through the nozzle while the Syringe is in use, PREVENTS THE FECALIZED FLUIDS FROM BEING DRAWN BACK INTO THE RUBBER BULB AND TUBE, WHICH OFTEN HAPPENS IN THE USE OF INTERMITTENT SYRINGES, RENDERING THEM OFFENSIVE.

Please note that the improved action of these Syringes is obtained by simply corrugating or flattening the usual round rubber outlet tubes of ordinary Syringes. Therefore, they have no clumsy air chambers or other complications to get out of order.

The Alpha Syringes have received the indorsement and praise of the highest medical authorities as being the safest and easiest Syringe known for invalids to operate—never tiring the hand, perfect in cleanliness, durability and efficiency.

 Belladonna Leaves, No. 60, 12 parts.
 Dilute Alcohol, q. s.
 To make 100 parts.

Proceed as directed by the U. S. P., 1880.

Fully appreciating the advantages to be obtained by the use of a carefully prepared percolate, as directed by the U. S. P., 1880, and also the difficulty of meeting this requirement by the pharmacist with the ordinary drug mill, we have prepared a full line of drugs, ready for maceration and percolation.

With the assayed drugs we give on their respective labels both standard and assayed strength, so that the pharmacist may prepare a tincture or fluid extract, the strength of which in active principles is accurately known.

The physician is also thus enabled in prescribing to regulate the dose according to the exigencies of the case; knowing to a certainty the amount of medicinal properties he is administering, he can with confidence anticipate the result, while, on the other hand, when prescribing medicines of unknown strength, he has no guarantee that they contain the active principles required.

The strength of the drugs will naturally vary, but when the comparative values are given, whether above or below the standard, the necessary quantity is easily determined.

To more clearly illustrate our meaning, we give a copy of the labels appearing on each package of our assayed drugs.

SCOTT'S EMULSION

— VERSUS — PLAIN COD LIVER OIL.

Plain Cod Liver Oil *is indigestible, deranges the stomach, destroys the appetite, is not assimilated*, and in a majority of cases is detrimental to the patient.

SCOTT'S EMULSION

Can be *digested in nearly all cases, is assimilated, does not derange the stomach, nor overtax the digestive functions*, and can be taken for an indefinite period when the plain cod liver oil cannot be tolerated at all, and with most marked results in *Anæmia, Consumption* and all wasting conditions. It also contains the *Hypophosphites of Lime and Soda with Glycerine*, which are most desirable adjuncts.

WHEN PHYSICIANS TRY IT THEY INVARIABLY USE IT in preference to the plain cod liver oil or other *so-called Emulsions* that invariably separate, and hence their integrity and value is destroyed. *Scott's Emulsion is palatable and absolutely permanent*, hence its integrity is always preserved.

CHERRY MALT PHOSPHITES.

A combination of the tonic principles of *Prunus Virginiana, Malting Barley, Hypophosphites of Lime and Soda, and Fruit Juices*. An elegant and efficient brain and nerve tonic. Send for samples of above—delivered free.

MENTION THE MEDICAL AND SURGICAL REGISTER.

INTRODUCTORY.

The urgent appeals for a second edition of the *Medical and Surgical Register of the United States*, and the assurance of hearty co-operation of the Medical profession, fully confirmed the publishers in the belief that a regular publication of the kind could be permanently established, and it is with great pleasure that this, the second volume, is herewith presented. It is impossible to overrate the importance and value of such a work, the successful production of which was beset with difficulties on all sides, and the amount of time, expense, patience and labor involved in bringing the Register to such a state of perfection as is exhibited in the present volume, can never be measured except approximately, and presents the result of labored research, such as could only be accomplished by the great facilities and long experience of the publishers in Directory work.

As in the 1st volume, the main feature of the work is the list of the Physicians and Surgeons of the country, arranged by States and Territories, compiled alphabetically by city, town or village, and showing, as far as obtainable, the school of medicine practiced, the college from which each physician graduated, and the class year of graduation. The task of receiving this vast mass of material, compiling and verifying it, and incorporating it into the final copy for the printer was, in itself, a stupendous undertaking, and a brief recapitulation of a few of the innumerable obstacles, before referred to, and inseparable to its accurate compilation, will demonstrate that for whatever omissions have occurred the publishers are in no wise to blame.

The same experience that was encountered in the work on the first volume, but repeated itself in the work on the present issue. Every individual whose name appeared in the first volume, was either called upon or addressed through the mails, and asked to furnish the information regarding graduation. Over one hundred thousand such requests were made, and a postal for reply invariably enclosed. Upon investigating the returns, it was found that thousands of physicians whose names appeared in volume I., had died or moved away and could not be traced by the postal authorities. Numbers did not inform the publishers of their present place of residence, and others, in numerous instances, neglected to state where they had resided before moving. It was also found that quite a large percentage of physicians had more than one address and that their names appear under each, all of which necessitates an unavoidable number of duplicates. Thousands out of the number addressed made no reply whatever to the communication and were addressed again, and hundreds of the physicians who did not reply at all, were given their college and year of graduation from the alumni list of their Alma Mater. As before, every alleged graduate was

.

checked with the official records of the college from which he or she claimed to hold a diploma, and if any discrepancy occurred, explanations were asked by mail of both the claimant and the college, and none appear as graduates of a college, unless it has been shown a bona fide claim.

That this combination of obstacles entailed delay after delay, a large amount of extra work and a huge mass of correspondence in order to correct as far as practicable, will be at once apparent, and, under these many adverse circumstances, the pains taken to secure completeness, must be acknowledged to have been signally successful, from the fact that not more than a third of the names in the Register will be found without school, college and class year of graduation, and that nowhere else can such an amount of information relative to the medical profession of the United States be found in a collective form. It will also be readily seen from the above explanation, that the symbol, an asterisk (*), meaning, "no report received in answer to enquiry regarding graduation," was only used after the most thorough research had failed to yield any particulars, and does not at all imply that the physician after whose name it appears, is a non-graduate. Numbers are doubtless so designated who are prominent in their profession, but the publishers found it impossible to secure any data regarding their graduation.

Nothing further remains in the way of introductory except to add some account of the actual contents of the book.

Its 1,711 pages contain the names of nearly 100,000 persons practicing medicine within the United States and the Territories. Irrespective of pathy, these are conveniently arranged alphabetically by State, city and postoffice. Each name is accompanied by all the information attainable regarding place and time of graduation. In large cities even the street and number are given, and in all cases the population of the place is set down. To avoid the enormous bulk that would have resulted from giving the full name of the college, and school of medicine practiced, a convenient and intelligible system of symbols was adopted, which is fully explained in a foot-note on each page. At the commencement of the list for each State and Territory is a good descriptive article, embodying such matters as location, boundaries, extent in miles and acres, latitude and longitude, statistics regarding climate, temperature, population, rate of mortality, number of deaths from consumption, and the names and locations of the best known mineral springs, all medical and charitable institutions, medical societies, and the full text of all State laws relating to the profession. In addition to this complete directory, the 100,000 names are repeated without addresses, arranged alphabetically, accompanied only by figures, whereby the reader can readily find each name in its appropriate place in the directory proper. This list will prove of great convenience, as it will enable any one to find the present location and address of any physician in the United States whose name he knows. It will doubtless bring many old friends into communication who have lost track of one another since graduation, and possibly in some cases discover the whereabouts of others who would prefer to remain concealed.

Preceding the directory of names are departments prepared with great care, giving full lists of all medical colleges, either existing or extinct, in the United

SMITH'S American Manikin

MANUFACTURED BY

THE AMERICAN MANIKIN CO.

PEORIA, ILL.

Reasons why Smith's American Manikin is the Best in the
Market.

BECAUSE IT IS

Correct in Drawing, Natural in Color, Convenient to Handle,

Made of METAL and practically INDESTRUCTIBLE,

Soiled parts can be easily cleaned and all parts cheaply replaced,

It dissects much the same as a French Manikin, allowing the parts or organs to

be examined as SEPARATE views, or, in conjunction, as a whole,

It is the result of thirty years' study,

Its low price places it within reach of every physician and school in the land.

The PHYSICIANS' Manikin, complete, includes a BOOK OF PELVISES, an ATLAS OF COLORED PLATES, and a SURGICAL CHART.

The Pelvic Book consists of male and female pelvises, with dissecting parts made of metal. By the aid of these the physician can impart an accurate knowledge of the seat of Disease without disclosing any objectionable feature.

The Atlas of Colored Plates, illustrating features of Anatomy, Surgery, Deformities, Displacements, Strictures, etc., consists of a collection of Thirty Fine Colored Plates, 10x14 inches.

The Surgical Chart, illustrating the Closure of Wounds, Ligation of Arteries, and the position of parts as seen in the principal Amputations, graphically presents to the busy practitioner many facts important to be readily called to mind in emergencies. It is a most artistic piece of work as well as a valuable compendium of surgical knowledge.

States and Canada, of officers of the medical departments of the United States army, navy, marine hospital service and pension department, and a complete directory of the medical journals of the United States. All errata and the names of physicians, societies, institutions, etc., received too late for publication in the body of the book, will be found in the appendix, pp 1700-1708.

The publishers desire to thank all those who have assisted them during the compilation of the work, and, in conclusion, would state that it is intended that this publication shall be regularly issued, and in accordance with that intention a third edition of the work will appear in due course, in which improvements and additions will be made.

NOTE.—Special attention is called to the fact that the symbol, an asterisk (*), meaning, “no report received in answer to inquiry regarding graduation” was only used after the most thorough research of the alumni lists of all existing colleges had failed to yield any particulars and does not at all imply that the physician after whose name it appears is a non-graduate. Numbers are doubtless so designated who are graduates and prominent in their profession, but the publishers found it impossible to secure any data regarding their graduation.

It makes success; It turns it to
Continuous ovation,
If you can point to what you do
By way of illustration.

As hens, although they recommend
Their business with their clatter,
Convince us, most by eggs, which end
All question in the matter.

The countryman, when told "Lightning never strikes twice in the same place," exclaimed: "It don't have to." When success hits the nail on the head, it never stops to argue; like lightning, it don't have to. This is why Drs. Starkey & Palen do not weary you with tedious logic.

It is enough for them to point to the revitalized examples of the benefit of their

Compound Oxygen Treatment.

This Treatment has been used in over 55,000 cases by physicians in their practice, and by invalids independently. Over one thousand physicians, and fifty-four thousand invalids.

Here are a few lines of indorsement from various physicians who have used the Compound Oxygen Treatment:

DRS. STARKEY & PALEN:

I shall be glad to have you use me as reference at any time.
GEO. W. BARTLET, M. D.
BROOKLYN, N. Y.

DRS. STARKEY & PALEN:

Your Compound Oxygen Treatment has helped me very much.
F. B. RINEARSON, M. D.
PRAIRIE CITY, ORE., Nov. 27, 1888.

DRS. STARKEY & PALEN:

I have been using your Compound Oxygen with much satisfaction. I have also recommended it to a number of my patients, several of whom have sent for it and are being benefited.
A. G. ANTHONY, M. D.
WARNERS, N. Y., Sept. 26, 1888.

DRS. STARKEY & PALEN:

I regard Compound Oxygen as one of the greatest boons to suffering humanity, and speak from some observation as well as personal experience. Having had a terrible attack of Post Nasal Catarrh, which not only affects body, but mind also. From the use of the Compound Oxygen I am now quite another man, and though not fully restored to health, I am in a fair way of recovery.
JAMES H. POWE, M. D.
BENNETTSTVILLE, S. C., May 16, 1888.

DRS. STARKEY & PALEN:

I have ordered about twenty treatments of your Compound Oxygen for my patients (all of whom I regarded as incurable by any means at my command) in the last six years, and in all cases it has given good satisfaction. I have used it in the following diseases: Paralysis, catarrh nervous prostration, spermatorrhoea and general debility. All who have used it have been greatly benefited—and some even permanently cured. I regard your Compound Oxygen Treatment as the best remedy within my knowledge.

R. L. GREEN, M. D.
BANCROFT, Mo., Jan. 13, 1889.

DRS. STARKEY & PALEN:

My wife has been benefited by your Compound Oxygen Treatment, and will continue to take it.
W. A. SPENCE, M. D.
JACKSONVILLE, FLA., Jan. 10, 1889.

DRS. STARKEY & PALEN:

I have used Drs. Starkey and Palen's Compound Oxygen Treatment on two of my daughters for Phthisis (hereditary). One of them derived marked benefit, and I believe her life was prolonged several years. After use, the relief was always prompt.

CHAS. N. MAYSON, M. D.
KEYSTONE, GA., August 25, 1888.

DRS. STARKEY & PALEN:

I take pleasure in stating that my daughter, who for almost all her life has suffered from bronchial asthma, has received decided benefit from the Compound Oxygen Treatment. The benefit received in her case warrants me in saying to sufferers in a similar way that they would do well to investigate for themselves.

JOHN J. MASON, M. D.
COLUMBUS, GA., August 13, 1888.

DRS. STARKEY & PALEN:

Your Compound Oxygen is all you claim for it and more, too. Not only in my own case, but in W. B. Hinton's case, it has done wonders. We were both given up by our friends and physicians as HOPELESS CONSUMPTIVES. To-day after two months' use of your Compound Oxygen Treatment, we are almost as well as ever in our lives. Dr. Hicks, a friend of mine, tells me he has used your Compound Oxygen Treatment with the best results. I would not take the wealth of the world for the good your Compound Oxygen Treatment has done me, because I am satisfied that through the blessing of God it has saved my life, and restored me to health. It seems like it was Providence directed Prof. Hinton and myself to your Compound Oxygen Treatment. We were both out of heart when a friend recommended it to us.

L. A. PEACOCK, M. D.
SMITHVILLE, GA., Jan. 11, 1889.

If you would like to know whom the Compound Oxygen Treatment has benefited, all you have to do is drop a postal containing your name and address, to Drs. Starkey & Palen, No. 1529 Arch Street, Philadelphia, Pa.

Return mail will bring you a brochure of 200 pages, containing a record of results of the Compound Oxygen Treatment in cases of Consumption, Asthma, Bronchitis, Dyspepsia, Catarrh, Hay Fever, Headache, Debility, Rheumatism, Neuralgia, and all diseases of a chronic nature.

MALTED MILK

Is the only Food requiring No Cooking or the Addition
of Milk.

The time Required in the Stomach
Digestion of different Foods in Infancy.

BY MAX EINHORN, M. D.,
Physician to the German Dispensary, New York.

Read by title at the fortieth annual meeting of the American Medical Association,
and published in NEW YORK MEDICAL JOURNAL,
July 20th, 1889, page 67.

"Among the artificial food substitutes
examined as to the time of their stom-
ach digestion, MALTED MILK seemed to
take first place."

The investigations were pursued in the children's ward of Randall's Island
Hospital.

Samples of Malted Milk will be sent free upon application to

MALTED MILK CO.,
RACINE, WISCONSIN.

Fig. 51.

DIRECTIONS FOR MEASUREMENT.—1st. Around body, two inches below the tips of hip bones. 2d. Around chest, under arms. 3d. From each armpit to corresponding tip of hip bone. 4th. Height of person.

Fig. 20.

FIG 20—The DeGarmo-Hood Truss, on which recent improvements have been made (not shown in cut), with pads of improved design, which can be shifted by the physician or wearer to any angle or position necessary. A few of its leading advantages over other trusses are: First—Perfect Fixation, as owing to its solid front and springs around both hips, it cannot move out of place. Second—It gives a lifting pressure. Third—It holds the hernia within the internal inguinal ring. Fourth—It supports both sides in every case, a thin pad being used when only one side is affected, which prevents all possibility of a second hernia. Fifth—It is light, comfortable to wear, and exceedingly durable, no part being subject to rust. Put up with water pads if desired. While this is the best truss for most cases, a large stock of all kinds is kept on hand.

TRUSS FITTING.—Trusses are shaped for each case by the diagram system before sending them out, thus securing a better fit than could be otherwise obtained. Directions for taking diagram sent on application.

FIG. 51.—The Improved Revolving Spinal Prop. for Posterior Angular Curvature, or "Pott's Disease" of the Spine. Removes super-incumbent weight from spine, and acts as a splint to the diseased vertebrae. Light in weight, but efficient in action; all parts are adjustable to the changing shape and growth of the child.

The undersigned is now a manufacturer of all the Banning Appliances, which includes a complete system of supports for Pott's Disease, Lateral Curvature, Spinal Irritation and Weakness, Round Shoulders, and Abdominal and Uterine Troubles. The superiority of these appliances is proven by the favor in which they are held by the profession in this and other countries where they have been introduced.

ELASTIC GOODS.—Special attention is given this branch of the business, each article being promptly woven according to measurements; this insures fresh goods and a perfect fit.

G. J. DE GARMO,
712 BROADWAY, NEW YORK.

Artificial Noses and Ears.

Send for Illustrated Circular and Price List.
Mention Medical and Surgical Register of U.S.

DIRECTIONS FOR MEASUREMENT.—Take circumference in inches at points indicated by letters on figure (as E F G in Knee Cap), also the length, from Sole of foot to E for garter stocking, from Sole to F and from F to top for thigh stockings. Take measure carefully. I allow for compression.

J. G. THROWER'S INVALID LIFT AND SUPPORT.

WOOD MACHINE.

POSITION No. 1.
SUPPORTED AND
ASSISTED TO
WALK.

DESCRIPTION.

First. The Machine is a Lift, it is not a Chair or Bed.

Second. It is so simple that a child can manipulate it.

Third. A Child, ten years old, can Lift the Heaviest Man.

Fourth. There is no position that a person cannot be lifted to.

Fifth. It automatically changes patient from one position to another. From horizontal to perpendicular, from sitting to horizontal or perpendicular, or any position desired.

TESTIMONIALS.

ATLANTA, GA.
I have witnessed the practical operation in the case of a confirmed invalid patient, of Mr. Thrower's Invalid Lift and Support, and regard it as a wonderful invention and a thorough success.
F. H. ORME, M. D.

I have examined, also used, Invalid Lifts and Supports on this and the European continent; but have never seen any that could practically bear comparison with the one invented by J. G. Thrower, of this city.
ATLANTA, GA. C. A. STILES, M. D.

Mr. J. G. Thrower: Dear Sir—I have been using your Invalid Lift and Support for two months, and I find it all you claim for it. It is easily adjusted, very simple, and the largest man can be raised with the greatest ease without pain. In fact, I think it one of the best inventions of the age.

R. L. HOPE, Physician-in-Charge of Fulton County Almshouse.

J. G. Thrower, Dear Sir.—Allow me to congratulate you on the success you have achieved in the invention of your Invalid Lift and Support. I heartily endorse it to the Medical Profession, and all invalids that may be in need of it. Having witnessed its operation and mechanical construction, I regard it a wonderful invention and a perfect success. Respectfully yours,

A. R. ALLEY, M. D., Atlanta, Ga.

I need it in my business.—J. C. Beall, M. D., Sabinal, Texas.

Superior to anything in use.—J. M. Jones, M. D., Daylina, Fla.

It is a great invention, works admirably and will save much suffering to the afflicted.—C. S. Webb, M. D., Bowling Green, Va.

A perfect thing for what it was invented.—Barney S. Weil, 409 E. 82d St., New York.

Have tried it, think it unequaled.—C. C. Lindsay, 61 Whitehall St., Atlanta, Ga.

There is nothing better.—G. H. Hall, Bristol, Tenn.

I think it is the most perfect machine of the kind ever invented.—R. S. Avary, Atlanta, U.S.A.

I think it a very good thing.—J. L. McDaniel, Tallapoosa, Ga.

Does great credit to the inventor.—C. B. Whilden, Charleston, S. C.

A very complete machine.—W. H. Langley, Philadelphia, Pa.

The most useful article I have seen.—Miss Mary Smith, Easton, Ga.

It is the best in the world.—C. E. Bush, Barnesville, Ga.

Consider it the best in the world.—Albert A. Wood, Solicitor for Patents, Atlanta, Ga.

For the Treatment of Acute and Chronic Diseases,
And Especially for Nervous, Obscure and Long-Standing
Diseases that Resist other Modes
of Treatment.

Patients Treated either at our Institution or their Homes. The Medical Profession in sending us Special Cases may rely on our best efforts.

We believe our system of Electrical Treatment is the best in use, considering the marked success that has followed our practice from 1869, and in Toronto since 1876, confirmed by our long list of references and testimonials of the highest standing. No institution can give better evidence of the high appreciation of its work by those who know its value. Our new discovery in compounding the best qualities of Electricity for Therapeutic purposes, generated by our improved Medical Machines, this subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus act upon the most obstinate forms of diseases, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in springtime mellows the frozen earth and infuses new life in the soil. The mystery in making the marked cures we have, is simply in knowing how to utilize this sovereign power in the different qualities and modifications necessary to produce the desired chemical and other changes in the system. By the aid of our new discovery unique results are obtained, patients too low and weak for food or medicine have been restored—most obstinate, painful, long-standing cases have been cured in a few scientific applications—it can be taken imperceptibly in large quantities—it can also be agreeably applied so the patient can see it, taste it, hear it, feel it, but not smell it. All are not aware that many Batteries and Electrical Appliances in the markets have no curative properties. Our late improved Battery. Send or call for testimonials, references, etc., and learn what science and art have accomplished in this department. A work on Nervous Diseases, Self Treatment, etc., 25 cents in stamps. Address

**Offer the following New and Important PHYSIOLOGICAL
and THERAPEUTIC NUTRIENTS:**

HÆMOGLOBIN.—A solution of hæmatocrystalline (*Oxyhæmoglobin*) in serum albumen, indicated in *anæmia*, transient or permanent; *convalescence*, from prolonged and exhausting diseases; *cachexia* attended with imperfect elaboration of the blood, and in those varieties of *dyspepsia* and forms of *albuminuria* in which *iron* has proved beneficial.

HÆMOGLOBIN WITH DIGITALIS.—Exceedingly useful in the treatment of *functional cardiac disturbance*, dependent upon, or associated with *anæmia*; *irritation of the reproductive organs*, especially in females; *nerve exhaustion* from over mental strain; *dropsy* from heart failure, and as a general *cardiac tonic*.

HÆMOGLOBIN WITH ARSENIC.—Associating with Hæmoglobin, our new salt, *Arsenic Albuminate*, and forming a most admirable agent for the treatment of affections where *iron and arsenic* are conjointly indicated, as *neuralgia* of the fifth pair and intercostal nerves, *gastralgia*, *tuberculosis*, *amenorrhœa*, *menorrhagia*, *dysmenorrhœa*, *leucorrhœa*, *ascites* due to *anæmia*, and in *malarial fever* associated with *impaired nutrition*.

ALBUMINATE OF ARSENIC.—The double salt—*Albuminate of Arsenic and Sodium*—as recently prepared by us, and which is presumably the form in which this element enters the circulation. This salt gives the maximum medicinal impression of Arsenic in doses representing 1-240 grain of Arsenious Acid *without stomach irritation*, which is conclusive evidence that it is *entirely absorbed*.

RAW FOOD. (*Sanguis Defibrinatum*.)—This nutrient as prepared by us is free from the repulsive odor (*Halitus Sanguinis*) common to such preparations, and is specially worthy the attention of the medical profession.

PEPTONES. (*Peptonized Milk and Peptonized Beef*.) Process of Denison W. Chapman, M. D., patented February 5th, 1889.—Special mention is worthy of our *Peptonized Milk* (Casein Peptone) as being a product of the *typical food*, hence free from substances of *retrograde metamorphosis* or *waste products*. It is both *effective and acceptable of administration*.

Peptonized Milk and Cod Liver Oil.—A typical emulsion in which the oil is not only truly chylified, but thoroughly disguised, both primarily, in taste, and secondarily, from the stomach eructations.

ARMY MEDICAL MUSEUM AT WASHINGTON, D. C.

The Army Medical Museum was removed, in 1887, from the building formerly known as Ford's Theatre (Nos. 509 and 511 10th st. N. W.), and now occupies a portion of the new building erected at the northwest corner of 7th and B streets S. W., east of the National Museum. The rest of the building is occupied by the Library of the Surgeon General's Office, a portion of the Record and Pension Division of the War Department and the Laboratory.

The museum was founded, and a large portion of the medical and surgical specimens collected, during the war of the rebellion. Since the close of the war, however, the officers in charge have continued to collect specimens from the medical officers of the army at the several military posts, and a number of valuable specimens have been contributed by physicians engaged in private practice. Specimens of value from private physicians are always gladly received, and thus secure permanent preservation in connection with the names of the donors.

According to the report of the Surgeon General for the fiscal year, terminating July 1, 1889, the museum contained 9,818 pathological specimens, 2,853 anatomical specimens, 10,416 microscopical specimens, and 1,689 specimens of comparative anatomy. The collection is open to visitors daily from 10 a. m. to 3 p. m., and was visited last year by more than 31,000 persons. The officer in charge is Surgeon J. S. Billings, United States Army.

This collection is richer in specimens illustrative of the results of gunshot wounds, and of the surgical operations which they necessitate, than any other collection in the world. In other departments, though it does not equal some of the wealthy and long established museums of Europe, its collections are nevertheless by far the most important in America, and are annually increasing in extent and value.

The library of the Surgeon General's office, which occupies a portion of the same building, is also under the charge of Surgeon J. S. Billings, United States Army, and is the largest and most valuable medical library in the world. According to the Surgeon General's report, above referred to, it contains about 89,000 bound volumes and 130,000 pamphlets, and is steadily increasing. Medical men from any part of the country desirous of consulting the works in this library, are courteously welcomed, and granted free access.

NEW BALTIMORE MINERAL SPRINGS

—AND—

SUMMER RESORT.

GILBERT HATHEWAY, - - Proprietor.

The Waters of these Springs are practically the same as at the Famous Mt. Clemens Springs, located only ten miles from New Baltimore, and are unsurpassed by any in Michigan.

New Baltimore is beautifully adapted for a summer resort. It is pleasantly located on the West Shore of Anchor Bay, an arm of Lake St. Clair, being but 7 miles across the bay to the World's famous St. Clair Flats. No finer place can be found than this safe sheltered Bay for Yachting, Boating, Bathing, Hunting, Fishing, etc.

Ample Hotel accommodations are provided for the pleasure and health seeker. During the summer months the Steamer "Hattie" leaves Hatheway's Dock every morning at 8 A. M. for Detroit, returning leaves Detroit, Dock foot of Randolph Street, at 3.30 P. M., reaching New Baltimore at 7 o'clock in the evening, and the trip is a most delightful ride.

The Steamer "City of New Baltimore" leaves Hatheway's Dock, every Monday, Wednesday and Friday at 10 A. M. for Detroit, returning leaves Detroit, Dock foot of First Street, every Tuesday, Thursday and Saturday, arriving at 1 P. M., going from New Baltimore up the River to Marine City, St. Clair and way ports.

Is but about 4 miles from the Grand Trunk R'y at New Haven, where all regular trains are met by the Hack and Omnibus Line of C. H. Meier.

Health and pleasure seekers will be benefited by this delightful resort. For full particulars, terms, etc., address

THE IMPROVED MOVEMENT CURE

No. 71 East 59th St., New York.

Represents the modifications and improvements made in the Movement Cure by Dr. Geo. H. Taylor of New York. Its distinctive feature is the *experienced* application of MECHANICAL MASSAGE—for the relief and cure of chronic forms of disease of either the PELVIC, CIRULATORY, NERVOUS or DIGESTIVE systems. Send stamp for explanatory literature. Correspondence and personal inspection solicited. ALL VARIETIES of DR. TAYLOR'S APPARATUS for Sale.

JOHN H. LYNCH'S

Pure Cod Liver Oil,

MANUFACTURED BY HIMSELF.

TO PHYSICIANS AND DRUGGISTS.

A PERFECTLY PURE COD LIVER OIL, of full natural strength, and yet of surprising delicacy of taste, is what we present to you. We, practical Oil men and wholesale fish dealers, manufacture it under strict personal supervision, from selected livers of the live Cod, and have obtained here in New York, among institutions and the private sick, a reputation not approached. The oil can be taken by the delicate invalid or feeble infant, being more pleasant than a prime sweet salad or olive oil, and brings all the benefits which make JOHN H. LYNCH'S Pure Cod Liver Oil so marvelous in its cures for THROAT, BRONCHIAL AND LUNG DISEASES. In preparing Emulsions it has no equal. Druggists may order of the Trade or of

- REMARKS:** In 1884 DR. PARKER, the Secretary, furnished to the Illinois State Board of Health the following historical information: In 1881, MR. AMASA STONE, of Cleveland, donated \$500,000 to the Western Reserve University, then at Hudson, O., on condition that the name should be changed to Adelbert College of Western Reserve University, and the college be removed to Cleveland. About the same time the Cleveland Medical College and the Medical Department of Wooster University united as the Medical Department of Western Reserve University. Through Mr. STONE's efforts the bill of incorporation, passed in 1881, changed this title to the Medical Department of Adelbert College of Western Reserve University; but on his death the heirs consented to the resumption of the present title, and in March, 1882, the *ad eundem* degree of the Medical Department of Western Reserve University, was conferred upon all graduates of the Cleveland Medical College, and upon such graduates of the Wooster Medical Department previous to 1881 as desired it.

- 343 HALIFAX MEDICAL COLLEGE, Halifax, N. S. A. W. H. Lindsay, M. D., Registrar, 241 Pleasant street. Organized in 1867 as the Medical Faculty of Dalhousie College. Separately incorporated under present name in 1875. First class graduated in 1872. Classes graduated in each subsequent year (excepting 1873), until 1885, when a temporary suspension occurred. In 1887 the college reopened, but for two years provided instruction in the primary branches only. With the present session, 1889-90, the final classes have been resumed and the faculty now includes twelve professors, three lecturers and a demonstrator. An affiliation formed with Dalhousie University had for peculiar financial reasons to be severed; students of the Medical College, however, who fulfill the curriculum prescribed by Dalhousie, are admitted to the university examinations and may receive the university degrees, M. D., C. M. Requires matriculation examination and four years' study.
- 343¹ DALHOUSIE UNIVERSITY MEDICAL FACULTY, Halifax, N. S. A. W. H. Lindsay, M. D., Secretary, 241 Pleasant street. Organized in 1867. Incorporated as the Halifax Medical College in 1876. Reorganized as an examining faculty, separate from the faculty of the Halifax Medical College, under its present title, in 1885. First class graduated in 1872.

Niles' Rectal Speculum.

Fig. 1

Shows the instrument
ready for use.

Fig. 2

Shows the slides with-
drawn and illustrates the
character of the milled
edges which fit in the
grooves of the slots.

Having perfected a most valuable instrument for the aid of the physician in the treatment and cure of rectal diseases, we desire to call your special attention to NILES' RECTAL SPECULUM, an instrument which is adapted to all classes of rectal troubles.

It is constructed upon purely scientific principles. It is shaped similar to the index finger, making its introduction easy for the physician, and painless to the patient, even in extremely irritable conditions, and gives a complete view of the parts, thereby facilitating a ready diagnosis of the case.

Its advantages over all other specula are: that it is a double inclined plane, and has double slides hinged in the center, the unique character of the milled edges of which make it impossible to wound the mucous membrane, either on the withdrawal of the slides or instrument.

You can expose one-half of the surface on either side, which is necessary whenever acids or caustics are used in treating fissures or ulcers, making it an invaluable instrument to every physician.

Price, \$5.00.

Colored	600,103	Indians.....	213

Alabama extends from 30° 12' north latitude to 35° north latitude, a distance of 331 miles, and from 84° 55' to 85° 35' west longitude, a distance of 214 miles, and is in the same latitude as Palestine, Northern Africa, Central China and Southern Japan. It is bounded on the east by Georgia, on the south by Florida and the Gulf of Mexico, on the west by Mississippi and on the north by Tennessee, and comprises an area of 50,722 square miles, or 32,462,080 acres. The history of Alabama dates back to the year 1540, when the country was invaded by the Spaniards, under De Soto. The next appearance of Europeans was in 1702. In 1817 the United States created a territory of what is now Alabama, and two years later it was admitted into the Union, being one of the first States added to the original thirteen. Alabama belongs to the great forest region of the continent. Large forests of hickory, poplar, chestnut, oak, mulberry and other deciduous trees still cover the northern portion of the State, while in the south the magnolia, live oak and other sub-tropical evergreens flourish, and the river bottoms are lined with canebrakes and cottonwood trees. The climate is warm and semi-tropical. The northern portion is considerably colder than the southern, which is accounted for more by its greater elevation than from its higher latitude. The mean annual temperature is 62.37 degrees as observed at Auburn, which is situated near the geographical centre of the State. The mean annual temperature in the valley of the Tennessee river is 60 degrees, and in the extreme south about 69 degrees. The rainfall of the State is quite noteworthy, averaging 63 inches, which are distributed with tolerable regularity throughout the seasons. The beautiful Tennessee river drains the northern portion of the State. Entering at the northeast, it makes a broad sweep of about 280 miles, and forms for a short distance the northwest boundary, before entering Tennessee on its way to join the Ohio at Paducah, Ky. The mineral resources of Alabama are valuable and of considerable range. Gold is found in the east central part of the State, though not in paying quantities. Magnetic iron, red and brown hematite, ochre and other iron ores are found in Shelby, Benton, Bibb, Jefferson and Tuscaloosa counties. In Talladega and Randolph counties manganese occurs. Black, buff and variegated marbles abound in Shelby and Talladega counties, and rich veins of bituminous coal cover nearly all the northern part of the State. Its mineral

springs are famous for their medicinal properties. The following table show the increase in population for the past 60 years :

1820.....	127,901	1860.....	964,20
1830.....	309,527	1870.....	996,99
1840.....	590,756	1880.....	1,262,50
1850.....	771,623		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,070. Capital invested, \$9,668,008; number of hands employed, 10,019; wages paid, \$2,500,504. The value of material used was \$8,470,206 and the value of the products \$13,565,504. The educational facilities are excellent, and comprise the University of Alabama, located at Tuscaloosa; the Medical College of Alabama, located at Mobile; the Law School, at Montgomery; Spring Hill College (Roman Catholic), at St. Joseph; Howard College (Baptist), at Marion, and the Emerson Institute at Mobile. The constitution provides that a State Board of Education shall establish through the State, in each township or other school district, one or more schools, at which all the children between the ages of five and 21 years may attend free of charge.

Rate of Mortality in Alabama, as computed from the U. S. Census of 1880.

MEDICAL LAWS OF ALABAMA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF ALABAMA

Be it enacted by the General Assembly of Alabama :

SECTION 1. That no person, except those proposing to practice some irregular medicine, shall be permitted to practice medicine in any of its branches or departments of profession and means of livelihood in this State, without having obtained a certificate from some authorized board of medical examiners as hereinafter provided.

2. That no person shall be permitted to practice any irregular system of medicine of its branches or departments as a profession or means of livelihood in this State, without having obtained a diploma or certificate of qualification in anatomy, physiology, chemistry, and the mechanism of labor from some authorized board of medical examiners, as provided.

3. That the Board of Censors of the Medical Association of the State of Alabama, according to the constitution of the said Medical Association of the State of Alabama, adopted at its annual meeting at the city of Tuscaloosa, in March, 1883, and the censors of the several county medical societies which are in affiliation with the Medical Association of the State of Alabama, and organized in accordance with the provisions of the constitution just mentioned, be and are hereby constituted the authorized Boards of Medical Examiners referred to in the first section of this act.

4. That the standard of qualifications required of persons desiring to practice medicine in this State, together with the rules for the government of the authorized boards of medical examiners, shall be such as may be determined from time to time by the said Medical Association of the State of Alabama, in accordance with the provisions of its said constitution of 1873.

5. That every diploma or certificate of qualification authorizing any person to practice medicine in this State, which shall be issued by any authorized board of medical examiners, shall be presented to the probate judge of the county in which said person resides, and he shall officially endorse the same, and seal it with the seal of the county, and who shall also keep a full and fair copy of the same to be made in a well-bound book to be kept for that purpose called the register of licensed practitioners of medicine, and for this service he shall receive a fee of one dollar: *Provided*, that said Medical Association, nor any board of medical examiners in affiliation with it, shall be allowed to charge any fee for any diploma or certificate of qualification which may be granted by it.

6. That any person practicing medicine in this State in violation of any of the provisions of this act shall be guilty of a misdemeanor, and, upon conviction thereof before any court having competent jurisdiction, shall be fined in the sum of not more than one hundred dollars.

for every such offense; and if the fine so imposed be not immediately paid, said person shall be imprisoned in the county jail for not more than one year for every such offense.

7. That all persons who shall be legally engaged in the practice of medicine in any county of this State, before the organization of the board of medical examiners of said county, all persons who at any time have been legally engaged in the practice of medicine in this State, and who are now authorized to practice medicine in this State, shall be entitled to the certificate of the board of medical examiners, and to be inscribed in the register of licensed practitioners of medicine without examination as to qualification.

8. That the provisions of this act shall take effect in any county of this State whenever the board of medical examiners for said county shall have been organized, as hereinbefore provided, and the fact of such organization officially communicated to the probate judge of said county by the board of censors of the Medical Association of this State.

9. That none of the provisions of this act shall apply to females who now or may hereafter be engaged in the practice of midwifery: *Provided*, said females practice no other branch of department of medicine.

10. That all laws and parts of laws in conflict with the provisions of this act, be and the same are hereby repealed, and this act shall be in force from and after its passage.

Approved February 9, 1877.

Alaska was purchased from Russia by the United States, in 1867, for \$7,200,000 in gold, and extends from the Diomed Islands in Behring Straits in N. latitude 66°, W. longitude 168° 50', eastward along the shore of the Arctic ocean to W. longitude 143°, N. latitude 69° 30', and from the Diomed Islands southward to N. latitude 50°, W. longitude 168°; thence eastward to the 143 meridian. It is a peninsula situated in the extreme northwestern portion of North America, and comprises an area of 577,390 square miles, or 369,529,600 acres.

The surface is broken and mountainous, and is traversed by the most northern range of the Rocky Mountains. The Yukon river, navigable for a distance of 1,000 miles, and which intersects the territory from east to west, disemboguing into the Behring Sea, between 64° and 65°, and the Coppermine, also navigable, are the principal rivers, the latter has its mouth near latitude 60°.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The mean annual temperatnre at Sitka is about 44° F. The coast is warmed by he Japan current, which in the Pacific is the counterpart of the Gulf stream in he Atlantic. The warm, moist sea air meeting a cold current from the mountains causes frequent fogs and rains along the southern coast. The average rainfall is between 80 and 85 inches, the months of September and October being especially wet. The southern seaboard is fringed with dense forests of Sitka spruce, yellow cedar, fir, hemlock, larch, etc. Cereals do not ripen well, owing to the constant moisture.

The wealth of the territory lies in its furs and fisheries. Seals, bears, deer, wolves and other wild animals abound, and cod and mackerel are very plentiful.

The Territory is still unorganized, but a district government was created by act of Congress, May 17, 1884. It consists of a governor and a district court (sitting at Sitka in May, and at Wrangell in November). The clerk of the court is ex-officio secretary and treasurer of the District of Alaska.

No reliable mortality statistics are obtainable.

Arizona extends from 109° to 114°, 47', 6½" longitude west of Greenwich, and from 31°, 19', 24" to 37° north latitude, and is bounded on the north by Utah and Nevada, on the east by New Mexico, on the west by California and Nevada, and on the south by the Republic of Mexico. It comprises an area of 113,916 square miles, or 72,906,240 acres, or nearly three times the size of New York State.

The Territory was organized in 1863.

Liquid Peptonoids

Contains MORE VALUABLE PROPERTIES than ANY PREPARATION IN THE MARKET. It is a NUTRIENT, PEPTOGEN, DIGESTANT, STIMULANT and TONIC.

After a protracted and bloody struggle, the Apache has been conquered forever, and it is no idle statement that life and property are as safe in Arizona as in any of the Eastern States. The Rio Colorado, which runs through the northwestern part and along the western border, is the principal river of the Territory. It is navigable for 600 miles, and with its tributaries drains an immense area of country. The Gila and Salt rivers flow through Southern Arizona. The climate is salubrious and pleasant, except in the lower sections near the Gila and Rio Colorado, where the summers are excessively hot. Rainfalls occur during the months of June, July, August and September, but numerous streams fed by never-failing springs and melting snow, supply all the water that is needed for farming purposes. The mean annual temperature for the past nine years has been 72³/₁₀° F. The mines of Arizona may be called its bone and sinew, and the territory is one vast network of veins and ledges. Gold, silver and copper are found in their native state and also in many rich combinations. Coal, salt, marble, antimony, tellurium and alabastine abound, and petroleum has been struck near the Apache coal fields.

Vast tracts of richly grassed lands are open to grazers.

MEDICAL LAWS OF ARIZONA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE TERRITORY OF ARIZONA.

SECTION 617. It shall be unlawful for any person to practice medicine, surgery or other obstetrics in this Territory unless such person shall have obtained a diploma regularly issued by a medical college, properly and lawfully organized and existing under the laws of the State, wherein said college shall be located. Such diploma must state that the person named herein is qualified to practice medicine and surgery in all of its departments.

SEC. 618. A diploma that has been, or may hereafter be, granted for a moneyed consideration or other article of value alone, and a diploma regularly issued, as hereinbefore stated,

Campho-Phenique.

If you are not acquainted with the MERITS OF THIS ARTICLE, write for SAMPLE.

and which has been revoked or cancelled by the medical college from which it was issued, or by the act of the legislature of any State or Territory within which the same was granted, shall not be considered a sufficient qualification.

Sec. 619. Every person engaged or about to engage in the practice of medicine, surgery or obstetrics in this Territory shall register in the county recorder's office of the county where he is practicing, or intends to practice, in a book to be kept for that purpose by the county recorder, his name, residence and place of birth. He shall also present his diploma, and the county recorder shall make a true and correct copy of the same under the record of his name, residence and place of birth. The person so registering shall subscribe and verify by oath or affirmation before a person duly qualified to administer oaths, that he is the identical person named in the diploma presented for record, which affidavit shall be reduced to writing and annexed to the copy of the diploma as transcribed by the county recorder. The county recorder shall receive a fee of five dollars for each and every registration under this section, to be paid by the person so registering.

Sec. 620. Any person shall be regarded as practicing medicine, who shall profess publicly to be a physician, or who shall habitually prescribe for the sick, or who shall append to his name the letters "M. D." but nothing herein contained shall be construed to prohibit gratuitous services in cases of emergency. And the provisions of Sections 617, 618 and 619 shall not apply to lawfully commissioned surgeons of the United States army, and those who were commissioned and mustered into the United States service, as such, in the war commonly called the War of the Great Rebellion, practicing their profession within the limits of this Territory. Or physicians and surgeons who have been in the active practice of said profession for ten years, and at least three years in this Territory; *Provided*, that nothing in this act shall be so construed as to prevent the practice of medicine by parties and receiving pay therefor in localities situated fifteen miles or more from the residence or office of any regular physician.

Sec. 621. Any person violating any of the provisions of the four preceding sections shall be guilty of a misdemeanor.

Arkansas extends from 33° N. latitude to 36°, 30' N. latitude, and from 89°, 32' W. longitude to 94°, 38' W longitude, and is bounded on the north by Missouri, on the west by the Indian Territory and Texas, on the south by Louisiana, and on the east by the Mississippi river, which separates it from Mississippi and Tennessee.

It was organized as a territory in 1812, and admitted as a State in 1836.

The principal rivers of Arkansas are the Mississippi, which washes the eastern shore for a distance of 400 miles, the Arkansas, which intersects the State from west to east, the St. Francis, the White and the Red rivers.

Pine forests cover a considerable part of Southern Arkansas; oak, maple and hickory predominate in the hilly portions of the State, and the large rivers are fringed with broad belts of cottonwood, cypress and gum trees.

The climate is mild, the mean annual temperature in the northern part being about 58°, in the central 61°, and in the southern 64.° The northwestern portion is the coldest, and the southeastern the hottest. The rainfall varies from 54 inches in the southeast to 40 in the northwest.

Cotton is the great staple of the State, but tobacco is also largely grown.

Arkansas is rich in minerals, zinc, iron, lead and copper abounding. Novaculite, or Arkansas whitestone, is found in Hot Springs county, and is said to be the most valuable in the world. Marble, freestone and gypsum are abundant, as is also coal, both anthracite and bituminous.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The mineral springs of the State deserve a much more extended notice than is possible in the brief space allotted to this sketch. Among these are the Eureka Springs in Carroll county, which have long been famous for their curative properties; the well known Happy Hollow Springs within the city limits of Hot Springs (for description see page 158), and the Potash Sulphur Spings about 7 miles east of Hot Springs.

The following table shows the increase in population for past 60 years:

1820.....	14,255	1860	..435,450
1830.....	30,388	1870.....	484,471
1840.....	97,574	1880	802,525
1850.....	209,897		

The educational advantages are very great, and consist of the Arkansas Industrial University, at Fayetteville; Judsonia University, in White County; St. John's College and Little Rock Female College, both in the city of Little Rock, and Cane Hill College, at Boonsborough. There are besides many high schools, and a complete system of free schools. All religious denominations are here represented, and nearly every hamlet has one or more churches or church societies. There is one medical college in the State, the Medical Department of the Arkansas Industrial University, at Little Rock.

The census of manufacturers for 1880 shows the total number of establishments at that time to have been 1,202; capital invested, \$2,953,130; number of hands employed, 4,556; wages paid, \$925,358; value of materials, \$4,382,080; value of products, \$6,756,159.

802,525	14,812	18.46	11,307	3,505	19 11	16.61

Total number of deaths from consumption during 1880, was 955, which was at the rate of 1.20 per 1,000 of population, or 64.47 per 1,000 of total deaths.

MEDICAL LAWS OF ARKANSAS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF ARKANSAS.

Be it enacted by the General Assembly of the State of Arkansas :

SECTION 1. That hereafter no person shall practice medicine and surgery, or medicine or surgery, as a profession in this State, without first being registered as a physician or surgeon, in the office of the clerk of the county court of some county in this State.

2. Each county clerk in this State shall keep in his office a well bound book, in which he shall register the names of all such persons as shall be lawfully qualified, as hereinafter provided, and who shall apply for registration as physicians and surgeons, or physicians or surgeons, with the date of such registration.

3. That hereafter any person who may wish to practice as physician and surgeon, or either, in this State, shall be allowed to register as such, who shall file with the clerk of the county court of any county in this State a certificate of qualification signed by a majority of the county board of medical examiners of the county in which he or she offers to register: *Provided*, That no person shall be allowed to register as physician or surgeon until he or she shall have attained the age of twenty-one (21) years: *Provided further*, That any person living in a county in which no board is organized, may apply to a board of some other county, or to the State Board.

4. That immediately after the passage of this act, the county judge of each county in this State shall appoint for his county a board of medical examiners, consisting of three persons, who shall be citizens of such county and learned in the sciences of medicine and surgery, of good moral character, and duly registered under this act, who shall hold their offices until the first term of such county court, in the year 1882, at which time, and every four years thereafter, said board shall again be filled by appointment as above provided; and should a vacancy occur in said board at any time, the same shall be filled by appointment made by the county judge.

A SPECIFIC FOR URINARY TROUBLES

DYSPEPSIA, INDIGESTION, TORPID LIVER,

And All Diseases of the Mucous Membrane

=====CURED=====

IF YOU DESIRE TO GET WELL, TRY IT.

The celebrated **Happy Hollow Spring** is one of a group of springs at the famous **Hot Springs, in Arkansas.**

The water from this *remarkable spring* is perfectly transparent, and has a slight sub-acid taste. The decidedly remedial effects obtained from its use are derived solely from drinking it. It is claimed for *Happy Hollow Water*, by many who are competent to judge, and whose opinions are entitled to respect, that it is the *Best Natural Water yet discovered* for all *Urinary Troubles*, for *Dyspepsia*, Indigestion and kindred diseases, and for all diseases of the *Mucous Membrane*.

Happy Hollow Spring has for years been visited daily by *many hundreds of people*, and nearly all of them, if not all, who were afflicted with any of the diseases mentioned, were either cured or greatly benefited by drinking the water.

Mr. E. W. Rector, of Hot Springs, Arkansas, who is one of the owners of **Happy Hollow Spring**, has in his possession many voluntary testimonials of the *great virtue of this water*, given by persons who have been *cured by the use of the water*. These testimonials will not be published, as a publication of them would only be *cumulative evidence of the efficacy of the water*.

Orders for the Water must be sent to keeper of Happy Hollow Spring, or to

4. That the members of said board shall, before entering upon the discharge of their duties, take the official oath prescribed by the constitution of this State. That at the first meeting of the members of such board after they shall have been appointed, preparatory to the transaction of the business assigned them under this act, they shall organize by electing one of their members as president and another as secretary. The regular meetings of such board shall be held quarterly, at the court house of the proper county, on the first Mondays in January, April, July and October in each year, and when so assembled said board shall faithfully and impartially examine all such persons as shall appear before them for such purpose, touching their qualifications to practice medicine and surgery, or either; and all such persons as shall satisfy such board of examiners, or a majority of them, that he or she is twenty-one (21) years of age, of good moral character, and duly qualified, in knowledge and capacity, to practice medicine and surgery, or either, shall receive from such board a certificate of qualification as physician and surgeon, or either physician or surgeon, as the case may be; which certificate shall entitle such person to registration under the provisions of sections two (2) and three (3) of this act: *Provided always*, That such physician or surgeon shall be registered in the same county in which he or she was examined, except as provided in section ten (10) of this act: *Provided*, That any person desiring to be examined at any other than the time of the regular quarterly meeting, shall notify the president of the board of such desire, whose duty it shall be to assemble the board as soon as practicable and examine such applicant.

6. That the county clerk shall give to every person registered under this act a certificate of registration, over his signature and official seal, and such certificate shall authorize any such person to practice as a physician or surgeon, or both, as the case may be, in any county in this State. That the clerk shall receive, as his fee, for all services required of him under this act, in each case, the sum of one and a half dollars (\$1.50).

7. Any two members of said board shall constitute a quorum for the transaction of all business, and each applicant for examination shall pay, in advance, to the Secretary, to be divided equally among the members of such board, the sum of six (\$6) dollars, which shall be their only compensation.

8. Be it further enacted: That all physicians and surgeons, who have been continuously engaged in a reputable practice in this State for a period of five (5) years next before the passage of this act, shall not be required to undergo the examination herein provided for, but shall, upon satisfactory proof, before the county clerk, of such continuous practice, and the payment of the fee allowed that officer, be duly recognized. Females who are now, or may hereafter, engage in the exclusive practice of midwifery, are exempted from the provisions of this act.

9. That any person who shall prescribe or administer medicine for, or who shall in any manner treat diseases or wounds for pay, shall be deemed physicians and surgeons under this act.

10. That immediately after the passage of this act, the Governor shall appoint a State Board of Medical Examiners, consisting of five members, learned in the sciences of medicine and surgery, and of good moral character, and duly registered, who shall organize in the manner prescribed for county boards by this act, and shall hold their meetings at such times and places as the president may direct, for the purpose of the re-examination of any person, at his or her request, who has been refused registration by any county board; and if, upon such re-examination, such person shall be found qualified to practice medicine or surgery, said State Board shall grant to him or her a certificate accordingly, which certificate shall entitle the person so receiving it to be registered as provided in this act, in any county in this State. Such applicant shall pay the State Board a fee of five dollars; *Provided*, That no person desiring to practice medicine under this act shall be excluded therefrom on account of any particular system or school of medicine that he may desire to practice.

11. Any person who shall hereafter engage in the practice of medicine and surgery, or either, in this State, without being registered under this act, shall be deemed guilty of a misdemeanor, and upon conviction, in any court having jurisdiction under the laws of this State, shall be fined in any sum not less than ten nor more than one hundred dollars. And each day said physician shall practice medicine, without being registered, as hereinbefore required, shall be deemed a separate offense.

12. That this act take effect and be in force from and after its passage, for the purpose of the appointment and organization of the boards herein provided for; but no physician or surgeon shall be in violation of this act, if he or she shall comply with the provisions thereof at or before the regular meeting of the county board, in July of the year 1881.

Approved March 9, 1881.

CALIFORNIA.

CAPITAL, SACRAMENTO.

POPULATION OF STATE, 864,694.

(Census of 1880.)

Males	518,176	Native.....	571,820
Females.....	346,518	Foreign	292,874
White.....	767,181	Chinese	75,218
Colored	6,018	Indians.....	16,277

Claifornia, the second largest State in the Union, extends from 32° 34' to 42° N. latitude, and from 114° 8' to 124° 24' W longitude, and is bounded on the north by Oregon, on the east by Nevada and Arizona, on the south by Mexico, and on the west by the Pacific Ocean. It comprises an area of 188,981 square miles, or 120,947,840 acres. It is naturally divided into four distinct regions. 1. The Coast Ranges ; 2. The Sierra Nevada ; 3 The Central Valley ; 4. The Southwestern Region. California has but two large rivers, the Sacramento and San Joaquin, which traverse the Great Central Valley in opposite directions and empty into Suisun Bay, and the Klamath and Salinas and numerous smaller streams drain the State. The climate of California varies considerably in different portions, the mean annual temperature in the north being below 50° F., while in the southeast-ern portion it exceeds 70° F. The mean annual temperature at San Francisco for a period of 11 years was 55.23, and at Fort Yuma for a corresponding period, 74.77. In San Francisco rain falls freely during November and December, and the hottest months are September, October, August and July, in the order named.

The interior of the State, not being influenced by the sea, has a continental cli-mate, and the greater the distance from the ocean the colder the nights and the warmer the days. The average annual rain fall increases from S. to N., and in the Sierra Nevada with the altitude ; in Fort Yuma it is but 4 inches; in San Diego 9.16; in Sacramento 19 56; in San Francisco 21.69; and in the Sierra, at an altitude of 5,000 feet, 45 inches and more.

California may well be called the Garden of the World, for, embracing as it does every kind of soil and climate, it yields all the products of the temperate and many of the semi-tropical and tropical regions. The Sierras and the coast moun-tains constitute the most prominent geographical and topographical features of California. The former inosculates with the coast ranges at its two extremities, the Tejon Pass in the south, and Mount Shasta in the north. In these localities the two systems are so linked tha the distinction between them becomes a geo-logical and not a geographical one. Nearly every species of wild animal, from the grizzly to the opossum, may be found in the State, and all orders of birds common to the temperate zone are well represented. Reptiles are numerous, and the rivers and lakes swarm with members of the finny tribe, which in variety, size and quality, excel those of any other division of like extent. So much has been

said and written of the great mineral resources of California as to render it unnecessary to enter into a detailed account, suffice it to say that the State still maintains its position at the head of the mineral producing countries of the world. The great valleys of the Sacramento and San Joaquin are especially adapted to agriculture, the lands being fertile and productive, and the climate all that the most exacting farmer could desire. There are many mineral springs in the State, of which the Arrowhead Hot Springs, at Arrowhead, is one of the most popular. The following is an analysis of one of the Arrowhead springs :

Temperature of water, 193° F.	
Sulphate of potash, grains per gallon.....	4.001
Sulphate of soda, " "	42.476
Chloride of sodium, " "	8.178
Lithium.....	Strong test
Sulphate of lime, grains per gallon.....	1.343
Carbonate of lime, " "	1.343
Barium.....	A faint test
Free sulphuretted hydrogen, cubic inches per gallon.....	.644
Strontium.....	Well marked
Sulphate of magnesia.....	146
Carbonate of magnesia.....	321
Silica.....	4.942
Organic matter.....	Trace
Total solid contents.....	63.394

The educational advantages are exceptionally great, and religion is represented by churches of all denominations. The census of manufactures for 1880 shows the number of establishments at that time to have been 5,885; capital invested, \$61,243,784; number of hands employed, 43,799; wages paid, \$21,070,585; value of materials, \$72,607,709; value of products, \$116,277,973. For many years California has ranked among the health resorts of the world, and invalids from all parts have flocked here, and after a few months' sojourn have gone on their way rejoicing over renewed health and strength.

There are five medical colleges in the State : The Cooper Medical College, San Francisco; the Medical Department University of California, formerly Toland Medical College, San Francisco; the California Medical College (eclectic), San Francisco; the Hahnemann (homœopathic), San Francisco, and the College of Medicine of the University of Southern California, Los Angeles. The following shows increase of population for past 40 years :

1850.....	92,597	1870.....	582,031
1860.....	379,994	1880.....	864,694

Rate of Mortality in California, as Computed from the U. S. Census of 1880.

MEDICAL LAWS OF CALIFORNIA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF CALIFORNIA.

[The following sections of two acts to regulate the practice of medicine—the original act, approved April 3, 1876; the act of amendment approved April 1, 1878—are still in force.]

[SECTION 1—*Amendatory Act.*] Every person in this State practicing medicine or surgery in any of its departments, shall possess the qualifications required by this act. Every such person shall present his diploma to one of the boards of examiners herein named, together with the affidavit mentioned in this act. If the board shall find all the facts required to be stated in said affidavit to be true, the board of examiners shall issue its certificate to that effect, signed by all the members thereof, and sealed with the seal of the board, and such certificate shall be conclusive as to the rights of the person named therein, to practice medicine and surgery in any part of this State.

[2—*Amendatory Act.*] The Medical Society of the State of California, the Eclectic Medical Society of the State of California, and the California State Homœopathic Medical Society, corporations organized and existing under and by virtue of the laws of this State, and no other corporation, society, person or persons, shall appoint annually a board of examiners, consisting of seven members, who shall hold their office for one year, and until their successors shall be chosen. The examiners so appointed shall go before a district or county judge and make oath that they are regular graduates, and that they will faithfully perform the duties of their office. Vacancies occurring in a board of examiners shall be filled by the society appointing it, by the selection of alternates or otherwise. The boards of examiners now organized or existing under and by virtue of their appointments by the aforesaid societies, shall continue to act as such boards until their successors are appointed at the next annual election.

[3—*Original Act.*] The board of examiners shall organize within three months after the passage of this act. They shall procure a seal, and shall receive, through their Secretary, applications for certificates and examinations. The president of each board shall have authority to administer oaths, and the board take testimony in all meetings relating to their duties. They shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing. They shall prepare two

forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the board. They shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold their meetings, they shall, as far as is reasonable, accommodate applicants residing in different sections of the State, and due notice shall be published of all their meetings. Certificates shall be signed by all the members of the board granting them, and shall indicate the medical society to which the examining board is attached.

[3—*Amendatory Act.*] Said board of examiners shall examine diplomas as to their genuineness, and if the diploma shall be found genuine as represented, the secretary of the board of examiners shall receive a fee of five dollars from each graduate or licentiate, and no further charge shall be made to the applicant; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The applicant shall accompany his diploma with an affidavit stating that he is the lawful possessor of the same; that he is the person therein named; that the diploma was procured in the regular course of medical instruction, and without fraud or misrepresentation of any kind; and that the medical institution granting the diploma had, at the time of the granting the same, a full corps of medical instructors, and was, at the said time, a legally incorporated institution, actually and in good faith engaged in the business of medical education, and in good standing as a medical institution, and that the applicant had complied with all the requirements of said institution. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal. In addition to such affidavit, the board of examiners may hear such further testimony as in their discretion they may deem proper to hear as to the verification of any such diploma, or as to the identity of the person named therein, or as to the manner in which any such diploma was procured. And if it should appear from such testimony that any fact stated in said affidavit is untrue, the application of such person for a certificate shall be rejected. None of said boards shall entertain an application which has been rejected by another of said boards, nor shall any rejected application be renewed until at least one year after the action of the board rejecting the same.

[4—*Amendatory Act.*] The boards of examiners must refuse certificates to individuals guilty of unprofessional conduct. But before any such refusal, the applicant must be cited, by a citation signed by the secretary of the board and sealed with its seal, to appear before the board at a time and place certain, for the purpose of being heard as to such unprofessional conduct. Said citation shall notify the applicant of the time and place where and when the matter of said unprofessional conduct shall be heard, the particular unprofessional conduct with which the applicant is charged, and that the applicant shall then and there appear in person and attended with such witnesses to testify on his behalf as he may desire, or default will be taken against him, and his application for a certificate refused. The attendance of witnesses at such hearing shall be compelled by subpoenas issued by the secretary of the board, under its seal; and said secretary shall in no case refuse to issue any such subpoena on a fee of fifty cents being paid him for each subpoena. Said citations and said subpoenas shall be served in accordance with existing provisions of law as to the service of citations and subpoenas generally. At such hearing witnesses shall be examined on the part of the board and on the part of the applicant as to the fact of the applicant having been guilty of the conduct set out in the citation; and either side may examine medical experts as to whether such conduct is unprofessional; and if it appears to the satisfaction of the board that the applicant is guilty of said unprofessional conduct, no certificate shall be issued to him. But no application shall be refused on the ground of unprofessional conduct unless the applicant has been guilty of unprofessional conduct within one year next preceding his application. If any holder of a certificate be guilty of unprofessional conduct, his certificate must be revoked by the board granting it; but no such revocation shall be valid without said holder being cited to appear and the same proceedings be had as is hereinbefore provided in this section in case of refusal to grant a certificate. Whenever a certificate is revoked the secretary of the board revoking the same shall certify, under the seal of the board, to the county clerk of the county in which the person whose certificate has been revoked is at the time of said revocation practicing his profession, and said clerk shall thereupon write on the margin or across the face of his register of the certificate of such person the fact of such revocation, signing his name thereto, and shall file in his office said certificate of revocation. Each of said boards may, from time to time, adopt such rules as may be necessary to the orderly conduct of all the proceedings taken and had before it. It shall be the duty of the secretaries of the respective boards to notify the secretaries of all other boards provided for under this act, of all applicants to whom licenses may have been refused, together with the reasons of such refusals by such boards.

[10—*Original Act.*] In all cases of refusal or revocation of a certificate, the applicant may appeal to the body appointing the board.

[9—*Amendatory Act.*] Should either of the said boards issue a certificate to any person whose application for a certificate has been previously rejected by another of the said boards within one year after the rejection of said application, then, in such case, the certificate issued as aforesaid to said rejected applicant shall be null and void and of no effect.

[8—*Amendatory Act.*] Any person assuming to act as a member of a board of examiners, under this act, or under the act to which this act is supplemental and amendatory, and who shall sign or subscribe, or issue or cause to be issued, or seal or cause to be sealed, a certificate authorizing any person to practice medicine or surgery in this State, except the person so acting and doing being appointed by one of the societies mentioned in section two of this act, or be authorized so to do by a board of examiners appointed by one of the societies mentioned in section two of this act, shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than fifty dollars (\$50), or by imprisonment in the county jail for a period of not less than thirty days nor more than three hundred and sixty-five days, or by both such fine and imprisonment.

[5—*Original Act.*] All examinations of persons not graduates or licentiates shall be made directly by the board, and the certificates given by the boards shall authorize the possessor to practice medicine and surgery in the State of California; but no examination into the qualifications of persons not holding diplomas or licenses shall be made after the thirty-first day of December, eighteen hundred and seventy-six. After that date no certificates shall be granted by them, except to persons presenting diplomas or licenses from legally chartered medical institutions in good standing.

[8—*Original Act.*] Candidates for examination shall pay a fee of five dollars, in advance, which shall be returned to him if a certificate be refused. The fees received by the board shall be paid into the treasury of the medical society by which the board shall have been appointed, and the expenses and compensation of the board shall be subject to arrangement with the society.

[9—*Original Act.*] Examinations may be in whole or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

[6—*Original Act.*] Every person holding a certificate from a board of examiners shall have it recorded in the office of the clerk of the county in which he resides, and the record shall be endorsed thereon. Any person removing to another county to practice, shall procure an indorsement to that effect on the certificate from the county clerk, and shall record the certificate in like manner, in the county to which he removes, and the holder of the certificate shall pay to the county clerk the usual fees for making the record.

[7—*Original Act.*] The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with date of the issue and the name of the medical society represented by the board of examiners issuing them. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

[5—*Amendatory Act.*] Any person shall be regarded as practicing medicine within the meaning of this act who shall profess publicly to be a physician or who shall habitually prescribe for the sick, or who shall append to his name the letters "M. D." But nothing herein contained shall be construed to prohibit gratuitous services in case of emergency. And this act and the act to which this act is supplemental and amendatory shall not apply to lawfully commissioned surgeons of the United States army and navy practicing their profession within the limits of this State.

[7—*Amendatory Act.*] Any person practicing medicine or surgery in this State, without first having procured a certificate to so practice from one of the boards of examiners appointed by one of the societies mentioned in section two of this act, shall be deemed guilty of a misdemeanor, and shall be subject to the penalties provided in section thirteen of the act to which this act is amendatory and supplemental; but no person who holds a certificate from one of such boards of examiners, or who holds a certificate heretofore granted by the board of examiners heretofore existing by virtue of appointment by the California State Medical Society of Homœopathic Practitioners, shall be compelled to procure a new certificate; and all powers and privileges of said boards of examiners under the act to which this act is supplemental and amendatory, are hereby transferred the boards of examiners created by this act.

[12—*Original Act.* 6—*Amendatory Act.*] Any itinerant vender who shall sell or offer for sale any drug, nostrum, ointment, or appliance of any kind intended for the treatment of disease or injury; or any person who shall, by writing or printing, or by any other method, publicly profess to cure or treat disease, injury or deformity by any medicine, drug or drugs, nostrum, manipulation, or other expedient, shall pay a license of one hundred dollars a month. Such license shall be collected as other licenses are.

[13—*Original Act.*] Any person practicing medicine or surgery in this State, without complying with the provisions of this act, shall be punished by a fine of not less than fifty dollars (\$50), nor more than five hundred dollars (\$500), or by imprisonment in the county jail for a period of not less than thirty days nor more than three hundred and sixty-five days, or by both such fine and imprisonment, for each and every offense; and any person filing or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of this State for the crime of forgery.

[Section 11 of the original act permitted students to "prescribe under the supervision of preceptors;" but this permission is rescinded by the amendatory act.]

The Arrowhead Hot Spring

A MOUNTAIN RESORT FOR TOURISTS AND HEALTH SEEKERS.

Six Miles North of San Bernardino, California.

ALTITUDE TWO THOUSAND FEET.

THE ARROWHEAD HOT SPRINGS take their name from a remarkable freak of nature. Indian Arrowhead which is blazoned on the face of a Mountain in the San Bernardino Range of Sierras. This Arrowhead is perfectly formed, covers five acres in extent, and is so distinct as to be visible for more than twenty miles. Below it is a beautiful Mesa, the sides of which fall away into deep Canyons. From the surface of this Mesa, and from the rocky sides of one of the Canyons, issue some twenty-five Springs of Hot Mineral Water. The Waters are very abundant and reach the unusual temperature of one hundred and ninety-three degrees, a heat sufficient to cook eggs in three minutes. They have been used for many years with great success in the treatment of numerous diseases curable by Mineral Waters and Baths.

During the great California boom the Arrowhead Property was purchased and improved. Los Angeles Capitalists, and a commodious Bath House and a costly Hotel remain for the benefit of the many who seek the healing of the Waters. There are many Mineral Springs, both hot and cold in Southern California, but the Arrowhead are the only Hot Springs at which elaborate improvements have been made. As a health resort they present the following rare combination of advantages:

An abundance of Hot Mineral Waters, as good as any in the United States, which are utilized in Mineral, Vapor and Mud Baths. The last named being a specialty of this place, and being given with unprecedented success.

An unfailing supply of pure, soft, cold mountain spring water, which is brought in pipes a mile and a half from its sources.

An excellent Hotel at which every effort is made for cleanliness, comfort and good living. It is kept open all the year. It has its own garden and dairy, and its table is supplied with the best that can be procured. In this respect it will not be outdone. It has its own system of Electric Lights, a resident physician and communication by telephone with San Bernardino and Los Angeles.

A climate that is unusually mellow and agreeable, even for Southern California. Arrowhead is above the frost and below the fog. It is, therefore, a desirable residence for consumptives and asthmatics.

Charming scenery, plenty of room for exercise, perfect drainage, freedom from flies, fleas and mosquitoes which are nuisances commonly prevalent in California.

Persons intending to visit California, either for pleasure or health, should write to the manager for rates and other particulars. The Postoffice address is Arrowhead Springs, California.

Works by DR. SAM'L O. L. POTTER.

An Index of Comparative Therapeutics,—being an exhaustive analytical Index to the Therapeutics of Ringer, Bartholow, Phillips, Piffard, Hale, Hughes, Hempel, and forty other authoritative teachers, by SAM'L O. L. POTTER, A. M., M. D. (JEFF.), late A. A. Surgeon, U. S. Army, Professor of Theory and Practice of Medicine in the Cooper Medical College of San Francisco.

Arranged alphabetically by Diseases, it compares Regular Therapeutics and Homœopathy side by side, in parallel columns, showing that modern Homœopaths have retained little, except the name, of their "Master's" system.

It vindicates Regular Medicine from the stigma of "Pathy," showing that the name "Allopath" is a misnomer, as there is nothing of value in any system which is not taught by the teachers of the Regular profession.

By special arrangements of type it indicates the drugs common to both schools for any disease, also the drugs peculiar to each school, and measures of universal acceptance in all schools. Each drug has reliable indications given for its use, which are followed by the initial of the authority for each.

It Has Received the Following Press Notices,

among a very large number of flattering reviews:

"To the curious who may wish to compare at a glance the therapeutics of homœopathy and rational practice, the opportunity is here offered by one who first graduated at a Homœopathic College, then entered Jefferson Medical College, and was graduated a regular physician. At graduation he took the Lea prize."—*Dr. R. J. Dunglison in The College and Clinical Record.*

"Finding that Dr. Potter had already compared together more works than I expected to do, I used his list along with * * * * in preparing my index. * * My intention to cancel it (the Index), however, led me to omit an acknowledgment of my indebtedness to Dr. Potter, and I have pleasure in acknowledging it now."—*Dr. T. Lauder Brunton, in Preface to Pharmacology, etc., 3d edition, London, 1887.*

"The only book of the kind that we know of."—*The Specialist (Churchill), London.*

"The author's selections have been made with care and discretion. The work has been well and carefully done."—*London Lancet, August 19th, 1882.*

"It is a work of considerable interest. It illustrates a conformity of practice between the two schools which is not generally suspected."—*N. Y. Medical Record.*

"Some years ago I was telling Mr. Kempton, the English publisher of Dr. Potter's work, how very valuable I had found it, so much so, in fact, that I purchased several copies for presentation to my medical friends."—*Dr. Percy Wilde, of Bath, England, in the Medical Press and Circular of May 4, 1887.*

The postoffice address is shown in **Display Type**, the name of county in which it located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on page 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

POPULATION OF STATE, 243,910.

(Census of 1885.)

POPULATION, 1880, 194,327. (Increase, per cent., 25 51.)

Males.....	129,131	Native.....	154,537

Colored.....	2,435	Indians.....	154

Colorado extends from 37° to 41½° north latitude, and from 102° to 109° west longitude, and is bounded on the north by Wyoming and Nebraska, on the east by Nebraska and Kansas, on the south by New Mexico and the Indian Territory, and on the west by Utah. It is the third largest State in the Union, ranking after Texas and California, and comprising an area of 104,500 square miles or 66,860,000 acres. The main range of the Rocky mountains runs through the centre of the State and forms the "Continental Divide." From one side the streams flow into the Gulf of Mexico, and from the other into the Pacific ocean.

The principal rivers are the South Platte and Arkansas, and these with their tributaries suffice to irrigate all the farm lands in the great agricultural counties of the State. The streams are fringed by cottonwood, box elder and willow trees, and in the foot hills and on the mountains pure spruce and cedar cover vast areas.

Rain falls from May to July, and the other months are dry.

The mean annual temperature is about 48°.

Rich native grasses and an abundant supply of pure cold water render the State peculiarly attractive to stock raisers and dairy farmers. Nearly every variety of mineral and ore is found in Colorado, and in the production of silver it stands at the head of all the States in the Union. Iron and coal abound, as do also gold, lead, copper, zinc, mercury, granite, marbles, sandstone, fire and pottery clay, gypsum and lithographic stone. The climate is proverbially healthful, the atmosphere is dry, free from malarial poisons and highly electric, acting as an invigorating draught. As regards school and church facilities, in proportion to its population, Colorado is unsurpassed.

The following table shows the increase in population for the past 35 years:

1860.....	34,277	1880.....	195,234
1870.....	99,864	1885.....	243,910

The census of manufactories for 1880 shows the number of establishments have been 599; capital invested, \$4,311,714; number of hands employed, 5,0 total amount paid in wages, \$2,314,427; value of materials, \$8,777,262; value products, \$14,260,159.

There are numerous mineral springs in the State.
There are three medical colleges in the State--the Medical Department of t University of Denver, in Denver; the Medical Department University of Colorad in Boulder, and the Gross Medical College, in Denver.

Rate of Mortality in Colorado, as computed from the U. S. Census of 1880.

194,327	2,547	13.11	2,521	26	13.19	8.12

Total number of deaths from consumption during 1880 was 210, which w at the rate of 1.00 per 1,000 of population, or 82.45 per 1,000 of total deaths.

MEDICAL LAWS OF COLORADO.

AN ACT TO PROTECT THE PUBLIC HEALTH AND REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF COLORADO.

Be it enacted by the General Assembly of the State of Colorado :

SECTION 1. That a board is hereby established which shall be known under the name and style of the State Board of Medical Examiners, to be composed of nine practicing physicians of known ability and integrity, who are graduates of medical schools of undoubted respectability, giving each of the three schools of medicine (known as the regular, homœopathic and eclectic schools) a representation as follows, to wit : six physicians of the regular, two of the homœopathic, and one of the eclectic school or system of medicine.

2. The Governor of this State shall, as soon as practicable after this act shall have become a law, appoint a State Board of Medical Examiners, as provided in section one of this act, and the members first appointed shall be so designated by the Governor that the term of office of three shall expire in two years from the date of appointment, the term of office of three shall expire in four years from the date of appointment, and the term of office of three shall expire in six years from the date of appointment: thereafter, the Governor shall biennially appoint three members, possessing qualifications as specified in section one, to serve for the term of six years, and he shall also fill all vacancies that may occur, as soon as practicable : *Provided*, that in making biennial appointments or filling vacancies, the representation of the medical schools in the board shall not be changed from the original basis, as in section one of this act.

3. The board of medical examiners shall, as soon after their appointment as practicable, organize by the election of one of their members as president, one as secretary and one as treasurer, and adopt such rules as are necessary for their guidance in the performance of the duties assigned them, and also to adopt a seal, which shall be affixed to all certificates issued by them to practitioners of medicine.

4. That every person practicing medicine in any of its departments, shall possess the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Medical Examiners for verification, or furnish other evidence conclusive of his being a graduate of a legally chartered medical school in good standing : the State Board of Medical Examiners shall issue its certificate to that effect, signed by a majority of the members thereof, and such diploma or evidence shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate of a legally-chartered medical institution in good standing, the person practicing or wishing to practice medicine in this State, shall present himself before said board of medical examiners and submit himself to such examination as defined in section 7 of this act, and if the examination be satisfactory to the examiners, the said board of medical examiners shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned. All persons who have made the practice of medicine and surgery their profession or business continuously for the period of ten (10) years, within this State, and can furnish satisfactory evidence thereof to the State Board of Medical Examiners, shall receive from said board a license to continue practice in the State of Colorado.

5. The State Board of Medical Examiners, within ninety (90) days after the passage of this act, shall receive, through its president, applications for certificates and examinations. The president of said board of medical examiners shall have the authority to administer oaths, and the said board of medical examiners to take testimony in all matters relating to its duties. It

shall issue certificates to all who furnish satisfactory proofs of having received diplomas from some legally-chartered medical institution in good standing. It shall prepare two (2) forms of certificates—one for persons in possession of diplomas, the other for candidates examined by its members. It shall furnish to the county clerks of the several counties a list of all persons receiving certificates. Certificates shall be signed by a majority of the members of the board of medical examiners granting them.

6. There shall be paid to the treasurer of the State Board of Medical Examiners a fee of five dollars (\$5) for each certificate issued to graduates or practitioners of ten (10) years' standing, and no further charges shall be made to the applicant. Candidates for examination shall pay a fee of ten dollars (\$10) in advance.

7. All examinations of persons not graduates shall be made directly by the State Board of Medical Examiners. Examinations may be in whole, or part, in writing, and the subject of examination shall be as follows: anatomy, physiology, chemistry, pathology, surgery, obstetrics, and practice of medicine (exclusive of materia medica and therapeutics).

8. Every person holding a certificate from the State Board of Medical Examiners shall have it recorded in the office of the clerk of the county in which he resides, and the record shall be endorsed thereon. Any person removing to another county to practice shall procure an endorsement to that effect on the certificate, from the county clerk, and shall record the certificate in like manner in the county to which he removes, and the holder of the certificate shall pay to the county clerk a fee of one dollar (\$1) for making the record.

9. The county clerk shall keep, in a book provided for the purpose, a complete list of certificates recorded by him. If the certificate be based on a diploma, he shall record the name of the medical institution conferring it and the date when conferred. This register shall be open to public inspection in business hours.

10. The State Board of Medical Examiners may refuse certificates to individuals who have been convicted of conduct of a criminal nature, and they may revoke certificates for similar causes.

11. Any person shall be regarded as practicing medicine within the meaning of this act who shall profess publicly to be a physician and prescriber for the sick, or shall attach to his name the title "M. D." or "Surgeon," or "Doctor," in a medical sense. But nothing in this act shall be construed to prohibit gratuitous services in cases of emergency.

12. Any person practicing medicine or surgery in any of their departments, in this State without complying with the provisions of this act, shall be punished by a fine of not less than fifty dollars (\$50), nor more than three hundred dollars (\$300), or by imprisonment in the county jail for not less than ten (10) nor more than thirty (30) days, or by fine and imprisonment, each and every offense; and any person filing, or attempting to file, as his own, the diploma or certificate of another, or who shall give false or forged evidence of any kind, shall be guilty of a felony, and upon conviction shall be subject to such fine and imprisonment as are made or provided by the statutes of this State for the crime of forgery.

13. All fees received by the treasurer of said board of examiners, and all fines collected by any officer of the law, under this act, shall be paid into the State treasury; and all necessary expenses of the board shall be paid for out of the funds of the State treasury not otherwise appropriated; but no fee shall be required or accepted by any member of the board for services.

14. The State Board of Medical Examiners shall meet as a board of medical examiners in the city of Denver, on the first Tuesdays of January, July and October of each year, and at such other times and places as may be found necessary for the performance of their duties.

Approved March 14, 1881.

15. [Amendatory.] No person shall be deemed to have violated the provisions of this act on the act of which it is amendatory, who has complied with provisions on their part; and it shall be the duty of the State Board of Medical Examiners to issue certificates to all persons, authorizing them to practice medicine in this State, who shall have complied with the provisions of this act and the act of which it is amendatory, including graduates of the electropathic school, without prejudice, partiality, or discrimination as to schools or systems of practice or medicine. The only courts of record in the State of Colorado shall have jurisdiction over and power to enforce the provisions of this act.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

Connecticut, one of the original 13 States, extends from 41° to 42° 2¼' N. latitude, and from 70° 55' to 73° 50' W. longitude, and is bounded on the north by Massachusetts, on the east by Rhode Island, on the west by New York, and on

the south by Long Island Sound. It comprises an area of 4,730 square miles, or 3,027,200 acres. The principal rivers are the Connecticut, the Thames, Housatonic, Naugatuck, Shepaug, Noraton, Norwalk and Mystic, and numerous miniature lakes are distributed over its surface.

The climate is marked by great extremes and sudden changes ; the winters are cold, the summers very warm. The district bordering on the sea is the hottest, and the northwestern portion the coldest. The mean annual temperature, as observed at the capital, is about 50,° and the rainfall varies from 41 to 47 inches, according to the place of observation.

The principal minerals are copper, cobalt, barytes, hydraulic lime, bismuth, valuable building stone, marble, nickle and feldspar.

The higher portions are well adapted to agriculture, which forms an important item in the industries of the State.

As a manufacturing center Connecticut takes a very high place among the States. The census for 1880 shows the number of estabtishments at that time to have been 4,488; capital invested, \$120,480,275; number of hands employed, 112,915; total wages paid during the year, \$43,501,518; value of materials, \$102,-769,341; value of products, \$185,680,211.

The following table shows the increase in the population for the past 80 years:

There are three Colleges in the State—Yale Colege at New Haven, Trinity College at Hartford (Episcopal), and the Wesleyan University at Middletown. Besides these there are many professional schools, and there is a very complete system of public schools. The religious facilities are all that could be desired.

The medical departmant of Yale College is the only medical institution in the State; it is located in New Haven.

Connecticut has no lofty mountains, but it includes the southern extremities of the two great New England ranges, the Green and the White Mountains. The State possesses many excellent harbors on Long Island Sound.

Rate of Mortality in Connecticut, as computed from the U. S. Census of 1880.

Walnut Lodge Hospital,

HARTFORD, CONN.

Organized in 1880 as a Private Hospital for the special cure and treatment of Alcohol and Opium Inebriates. This institution is based on the modern view, that **Inebriety is a Disease and Curable**, and that the best results are obtained in the treatment of these cases in small hospitals, where each case can receive the individual care of the physician.

This Institution is finely situated on the outskirts of the city, and the rooms are all large, heated with steam, and lighted with gas, and arranged for comfort, so that each one can have all the advantages of a large asylum with the quiet and privacy of a home. The treatment comprises the use of every means which science and experience have found to be of value in building up the brain and nervous system, and includes **Turkish, Vapor, Roman, Electrical and Saline Baths, Massage, Electricity** and other remedies. Experience shows that a large proportion of cases who come for treatment, and earnestly use all the means provided, are permanently restored and cured. Each case is treated individually, and the special care and restraint is adapted to the needs of each one. Only a limited number of cases are received, and every patient is under the direct personal care of an attendant and the physician.

Applications for admission and all letters of inquiry should be addressed

MEDICAL LAWS OF CONNECTICUT.

GENERAL STATUTES, CHAP. CLXXXV.

ITINERANT MEDICAL PRACTITIONERS.

SECTION 3006. Any itinerant person, not an inhabitant of this State, who shall, by circular, handbill or any other mode of advertisement, profess to treat, and shall, in any town in this State, treat disease or injury by any drug, nostrum, manipulation or other expedient, shall be fined twenty-five dollars for each day that he shall exercise his profession without procuring a license therefor.

3007. Selectmen in towns and the chief officer of police in cities, may issue such licenses upon payment to the town or city treasurer by such itinerant person of the sum of twenty dollars for each day for which his license may be granted. The license shall distinctly state the number of days which it shall be in force, and may be renewed at its expiration for any further time, upon the same terms. Such selectmen and chief officer of police shall record such licenses in books kept by them for that purpose, which shall be open to public inspection.

3008. Prosecutions for violation of this chapter may be heard and determined by police courts, where established, and by justices of the peace in other towns.

DAKOTA.

POPULATION, 415,263.

(Census of 1885.)

POPULATION in 1880, 135,177. Increase, per cent., 207.19.

Males	82,296	Native.....	83,382
Females.....	52,881	Foreign	51,795
White.....	133,147	Chinese	238
Colored	401	Indians.....	1,391

Dakota extends from 43° to 49° N. latitude, and from 96° 22' 30" to 104° W. longitude, and is bounded on the north by the British possessions, on the east by Minnesota and Iowa, on the south by Nebraska, and on the west by Wyoming and Montana. It comprises an area of 150,932 square miles, or 96,596,480 acres. The principal rivers are the Missouri, which intersects Dakota from north-west to southeast; the Red River of the North, Little Missouri, Big Cheyenne, Mouse, White, Pembina and Grand. The climate is more mild and genial than the latitude would seem to warrant, and the winters, though cold, are dry, and the air is bracing and invigorating. The average annual rainfall is about 20 inches, and as it mostly occurs during the warm season it is favorable to vegetation. Dakota is mainly a prairie region, but the rivers are fringed with groves of cottonwood, ash, oak, elm and maple. The wheat fields of Northern Dakota have made it famous all over the civilized world. In the central and southern portion more attention is given to stock raising and general farming. Rich mineral deposits are found in the southwestern portion, known as the Black Hills. Gold, silver, lead, salt, mica, nickel, tin, etc., abound, but the gold mines are the only ones developed. The hills are covered with forests of pine. Originally sought on account of its mineral wealth, it has proved to be, contrary to expectation, a remarkably fine agricultural and grazing country.

The census of manufactures for 1880 shows the number of establishments to have been 251 ; capital invested, \$771,428 ; number of hands employed, 868 ; total wages paid during year, \$339,375 ; value of materials, \$1,523,761; value of products, \$2,373,970.

The following table shows increase in population for the past 15 years :

1870.....	14,181	1885.....	415,263
1880.....	135,177		

The educational and religious facilities are all that could be desired.
There are no mineral springs in Dakota.

NOTE.—The postal arrangements for North and South Dakota not having been made at time of publication it was impossible to enter the two States separately.

Delaware is bounded on the north by Pennsylvania, on the west and south by Maryland and on the east by the Atlantic ocean and the Delaware river and bay, and extends from 38° 28' to 39° 50' N. latitude. It is one of the 13 original States and comprises an area of 2,120 square miles, or 1,356,800 acres. The Delaware river, which washes the eastern border, is the only navigable river in the State, the other rivers being the Indian and Nanticoke. The climate is mild, the mean annual temperature being about 53° The soil in the interior is light and easily cultivated, and peach growing is a prominent industry. The surface in the north is diversified with hill and dale, but in the southern portion it is almost a dead level.

Manufacturing engages the attention of a considerable portion of the population, and is carried on chiefly in Wilmington and vicinity. The census of manufactures for 1880 shows the number of establishments at that time to have been 746; capital invested, \$15,655,822; number of hands employed, 12,638; total wages paid during year, \$4,267,349; value of materials, \$12,828,461; value of products, \$20,514,438. The maritime commerce of Delaware is not extensive despite the fact that it borders on navigable waters.

The State is well provided with educational establishments, having three colleges: Delaware College, at Newark; St. Mary's, at Wilmington; and Brandywine College, at Brandywine, and a very complete system of public schools. All religious denominations are represented. The following table shows increase in population since 1860:

1860.....	112,216	1880.....	146,608
1870.....	125,015		

There are no medicinal springs in the State.

MEDICAL LAWS OF DELAWARE.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF DELAWARE.

Be it enacted by the Senate and House of Representatives of the State of Delaware in General Assembly met :
SECTION 1. That it shall not be lawful for any person to practice medicine or surgery in this State who has not graduated with the degree of Doctor of Medicine and received a diploma from some medical college authorized to grant diplomas : *Provided*, that the provisions of this section shall not apply to persons who have been eight years in continuous practice in this State or who are now, or may hereafter be, authorized by the Board of Medical Examiners of this State, as prescribed in Chap. 37, Sec. 3, of the Revised Code of the State of Delaware. (The Board of Medical Examiners shall be composed of as many fellows as the Society shall deem

Campho-Phenique Prevents Suppuration in Fresh Wounds, whether Incised or Lacerated, and Controls it in Wounds in all Stages.

proper. The said society shall appoint its own president and secretary and shall have power to grant licenses under their signatures for the practice of medicine and surgery in this State, and they are hereby required to grant such licenses to any person applying therefor who shall produce a diploma from a respectable medical college, or shall upon full and impartial examination be found qualified for such practice).

2. That any person who shall practice or attempt to practice medicine or surgery, or shall prescribe for any sick person or persons or perform any surgical operation for fee or reward, in violation of Sec. 1 of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof in any court of competent jurisdiction shall be fined in a sum of not less than one hundred dollars nor more than five hundred dollars for each and every offense, at the discretion of the court, one-half of said fine to be for the use of the informer, and the other half for the use of the State Board of Health.

3. Any person who shall attempt to practice medicine or surgery by opening a transient office within this State, or who shall by hand bills or other form of written or printed matter or advertisement assign such transient office or place to meet persons seeking medical or surgical advice or prescription, shall, before being allowed to practice as aforesaid, appear before the clerk of the peace of any of the counties of this State and furnish to him satisfactory evidence that the provisions of Sec. 1 of this act have been complied with; the said clerk of the peace shall thereupon issue to the person so applying a license to practice medicine and surgery in any of the counties of this State, provided, that the person so applying shall pay or cause to be paid to the said clerk of the peace as a license fee the sum of two hundred dollars per annum for said privilege.

4. The provisions of this act shall not apply to physicians who are regular practitioners of any other State, coming into this State, in consultation.

5. That within ninety days after the passage of this act every physician engaged in the practice of medicine or surgery in this State, shall register with the clerk of the peace of the county in which he resides, his name, date of graduation, and the college from which he was graduated; and make oath or affirmation that the diploma or certificate of his qualification to practice, which he is hereby required to exhibit to the clerk of the peace, is a bona fide diploma or certificate, and conferred upon him by the institution named therein; or that he has been a practitioner of medicine or surgery for eight years or more. Any person hereafter engaging in the practice of medicine or surgery in this State shall be required to register as above. Anyone failing to comply with the provisions of this section shall forfeit the sum of ten dollars, to be collected by the clerk of the peace before any justice of the county, in the name of the State of Delaware, and all sums collected shall be appropriated as follows: one-half to the clerk of the peace, and one-half to be paid by him to the county treasurer for county purposes.

6. That all acts or parts of acts inconsistent herewith, are hereby repealed.
Passed April 19, 1883.

Colored.....	59,596	Indians	5

The District comprises an area of 64 square miles, or 40,960 acres, and is bounded on the south by the Potomac River, the balance being enclosed by the State of Maryland. The East Potomac River and Rock Creek traverse the Dis-

trict and disembogue into the Potomac. The soil is fertile and productive. The climate is genial, the mean annual temperature being 56.16°, and the average annual rainfall 37.52 inches.

The following table shows increase in population during the past 45 years :

1840.....	43,712	1870.....	131,700
1850.....	51,687	1880.....	177,624
1860.....	75,080	1885.....	203,459

The entire District constitutes the county of Washington, in which the city of Washington, the capital of the United States, is situated.
 The census of manufactures for 1880 shows the total number of establishments at that time to have been 971; capital invested, \$5,552,526; number of hands employed, 7,146; total wages paid during year, \$3,924,612; value of materials, \$5,365,400; value of products, \$11,882,316.
 The medical institutions in the District are the National Medical College (Medical Department Columbian University), medical department of the University of Georgetown, medical department of Howard University, and medical department of National University—all located in the city of Washington.

Rate of Mortality in the District of Columbia, as computed from U. S. Census of '80.

MEDICAL LAWS OF DISTRICT OF COLUMBIA.

AN ACT TO REVISE, WITH AMENDMENTS, AN ACT TO INCORPORATE THE MEDICAL SOCIETY OF THE DISTRICT OF COLUMBIA.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled :

SECTION 1. That Frederick May, M. D., Alexander McWilliams, M. D., and twenty others, and such other persons as they may from time to time elect, and their successors, are hereby declared to be a community, corporation and body politic, forever, or until Congress shall by

law direct this charter to cease and determine, by and under the name and title of the Medical Society of the District of Columbia; and by and under the same name and title they shall be able and capable in law to purchase, take, have, and enjoy, to them and their successors, in fee or for lease, estate or estates, any land, tenements, rents, annuities, chattels, bank stock, registered debts, or other public securities within the District, by the gift, bargain, sale or demise, of any person or persons, bodies politic or corporate, capable to make the same, and the same, at their pleasure, to alien, sell, transfer, or lease and apply to such purposes as they may adjudge most conducive to the promoting and disseminating medical and surgical knowledge, and for no other purpose whatever: *Provided, nevertheless*, that the said society or body politic shall not, at any one time, hold or possess property, real, personal, or mixed, exceeding in total value the sum of six thousand dollars per annum.

2. That the members of the said society above designated shall hold, in the city of Washington, two stated meetings in every year, viz: on the first Mondays in January and July; the officers of the society to consist of a president, two vice-presidents, one corresponding secretary, one recording secretary, one treasurer and one librarian, who shall be appointed on the first Monday in July, one thousand eight hundred and thirty-eight, and on the annual meeting in January forever thereafter, and who shall hold their offices for one year, and until others are chosen in their stead (not less than seven members being present at such meeting); and the society may make a common seal and may elect into their body such medical and chirurgical practitioners, within the District of Columbia, as they may deem qualified to become members of the Society, it being understood that the officers of the society now elected are to remain in office until the next election after the passage of this act.

3. That it shall and may be lawful for the said medical society, or any members of them attending (not less than seven) to elect by ballot five persons residents of the District of Columbia, whose duty it shall be to grant licenses to such medical and chirurgical gentlemen as they may, upon a full examination, judge qualified to practice the medical and chirurgical arts, or as may produce a diploma from some respectable medical college or society, each person so obtaining a certificate to pay a sum not exceeding ten dollars, to be fixed on or ascertained by the society.

4. That any three of the examiners shall constitute a board for examining such candidates as may apply, and shall subscribe their names to each certificate by them granted, which certificate shall also be countersigned by the president of the society, and have the seal of the society affixed thereto by the secretary, upon paying into the hands of the treasurer the sum of money to be ascertained as above by the society; and any one of the said examiners may grant a license to practice until a board in conformity to this act can be held: *Provided*, that nothing herein contained shall authorize the said corporation in anywise to regulate the practice of medical or chirurgical attendance on such persons as may need those services, nor to establish or fix a tariff of charges or fees for medical attendance or vice.

5. That after the appointment of the aforesaid medical board, no person not heretofore a practitioner of medicine or surgery within the District of Columbia, shall be allowed to practice within the said District, in either of said branches, without first having obtained a license testified as by this law directed, or the production of a diploma from a respectable medical college or a board of examiners established by law: *Provided*, that the professors in such college or the examiners in such board, be men regularly instructed in medicine and surgery and the collateral branches of medical education, anatomy, chemistry, under the penalty of fifty dollars for each offense, to be recovered in the county court, where he may reside, by bill of presentment and indictment, one-half for the use of the society, and the other for that of the informer.

6. That every person who, upon application, shall be elected a member of the medical society, shall pay a sum not exceeding ten dollars, to be ascertained by the society.

7. That the medical society be, and they are hereby, empowered from time to time to make such by-laws, rules and regulations as they may find requisite, which by-laws, rules and regulations shall, in their application and operation, be exclusively confined to said society, as a society or body corporate, and not to its members individually, when not acting in a corporate character; to break or alter their common seal; to fix the times and places for the meetings of the boards of examiners; filling up vacancies in the medical board; and to do and perform such other things as may be requisite for carrying this act into execution, and which may not be repugnant to the Constitution and laws of the United States: *Provided, always*, that it shall and may be lawful for any person, resident as aforesaid, and not prohibited as aforesaid, when specially sent for, to come into any part of this District, and administer or prescribe medicine, or perform any operation for the relief of such, to whose assistance he may be sent for; *And provided also*, that nothing in this act contained shall be so construed as to prevent any person, living within or without said District, from administering medicine or performing any surgical operation, with the consent of the person or the attendants of the person to whom such medicine is administered, or upon whom such surgical operation is performed without fee or reward; nor to prevent the giving advice or assistance to the sick or afflicted, upon charity and kindness; nor to prevent the receipt of reward for the same, if voluntarily tendered or made; nor to extend to midwifery by females; and any person so administering medicine or performing any surgical operation, not authorized to practice physic and surgery according to the provisions of this act, shall be prohibited from collecting any fee or reward for the same by any process at law: And be it further provided, That no person shall be admitted to an examination until he shall produce satisfactory evidence that he has studied physic and surgery three years, including one full course of medical lectures, as usually taught at medical schools, or four years without such a course of lectures.

8. That Congress may at any time alter, amend or annul this act of incorporation of said society at pleasure.

Approved July 7, 1838.

CALIFORNIA'S FINEST PRODUCTION.

Jarvis Wines and Brandies

PUREST, OLDEST AND BEST.

TWENTY-FIVE YEARS as Growers, Distillers and Dealers entitles us to more consideration than the host of new beginners who simply buy and sell anybody's wine, and who often sell young and unreliable wine. Besides this, we keep

**One of the Largest and Best Assorted Stocks of Wine and Brandy
EAST OF THE ROCKY MOUNTAINS.**

We keep BRANDY IN BOND and duty paid both in the East and on the coast.

THE "JARVIS BRANDY"

is particularly mentioned. Is endorsed by many of the
Greatest and Most Eminent Analytical Chemists,
BY THE ABLEST CONNOISSEURS OF THIS COUNTRY.

GUARANTEED ALWAYS TO BE CHEMICALLY PURE.

This BRANDY has taken FIRST PRIZE at PHILADELPHIA, at NEW
ORLEANS and Sacramento,

And is in all respects equal to, and a grand rival of, the FINEST BRANDS OF
IMPORTED BRANDY.

Druggists and Physicians

Will find it greatly to their advantage to buy this article, for while it costs much less than French Brandy, it is just as good, and much more reliable.

OUR OLD PORTS ARE EQUAL TO ANY IN AMERICA.

THE HOME GYMNASIUM.

The Gymnasium, as shown in the cut, the right with lounge up, and the left, lounge down, represents a combination of pulley weights in one handsome piece of furniture covering the space of a double bedstead.

This apparatus is constructed to fill the wants of Hospitals, Sanitariums, Doctors' Offices, Colleges, Private Schools and Private Houses, not only to answer in the treatment of various ailments, but also to equalize and assist the functions of our system in health by a daily course of moderate exercise at home.

The Following Endorsements are Given:

Sir:—Your Home Gymnasium Apparatus combines simplicity with thorough effectiveness for the development and of the muscular system, and withal has the merit of cheapness. Yours truly,

D. HAYES AGNEW, 1611 Chestnut Street.
Philadelphia, Pa.

Dear Sir:—I have examined your Home Gymnasium, and am very much pleased with it. It seems to me to give full utility for the exercise and development of all the muscles of the body, and I am sure that its rational use cannot fail to befit to anyone who will try it. Very Respectfully,

WM. PORTER, M. D., 1223 Spruce Street.
Philadelphia, Pa.

Sir:—I have examined your Home Gymnasium Apparatus, and it appears to me entirely satisfactory. It seems to meet the objects for which it is intended, and to afford opportunity for the development of all of the muscles of the body. Yours truly,

H. C. WOOD, M. D., 1925 Chestnut Street.

In addition to the Gymnasium, which is for active exercise, Ruebsam has invented

"The Muscle Beater,"

is intended to furnish the part of the movement. By the use of the Beaters every person may be his own manipulator, and at small expense, remove any stiffness and prevent serious

I also give a few Endorsements as follows:

John E. Ruebsam: Dear Sir:—I am in the habit of prescribing your Muscle Beaters in suitable cases, and with excellent results. It is an important adjunct in massage treatment. Yours respectfully,

Philadelphia, Nov. 5, 1886.

Prof. D. HAYES AGNEW.

John E. Ruebsam: Dear Sir:—I have recommended your Muscle Beaters to several of my patients. I consider them a most valuable addition to the list of therapeutic agents for the treatment of Atrophy and Paralysis. Yours respectfully,

New York, January 12, 1887.

ALLEN McLANE HAMILTON, M. D.

CHARLES H. MILLS, of Philadelphia, Pa., in his book on the Nursing and Care of the Nervous and the Insane, published by J. B. Lippincott & Co., refers to and commends the use of the Muscle Beater (Page 56.) April number, 1887, of the Therapeutic Gazette, of Detroit, in an article (page 247) headed "A Substitute for Massage," finds the Muscle Beater strongly as a well-deserving substitute for the hands of a manipulator, to be used daily by the attending physician, or as an assistant to and between treatment to the professional operator where Massage is advisable.

Florida is bounded on the north by Alabama and Georgia, east by the Atlantic Ocean, and south and west by the Gulf of Mexico and Alabama. It includes the Peninsula of Florida, and comprises an area of 59,268 square miles, or 37,931,520 acres, of which 46,000 square miles are embraced in the peninsula, which has a uniform width of 100 miles, and extends from 25° to 30° N. latitude. The upper portion extends along the Gulf of Mexico to the River Perdido, a distance of 350 miles from the Atlantic coast line. The principal rivers are the St. Johns, Hillsborough, Withlacooche, Suwanee and the Apalachicola. Numerous lakes and ponds dot the surface of the peninsula. The climate is almost tropical, the average summer temperature being 80°, the winter varying from 65° to 70°, according to location.

The average annual rainfall is 55 inches.

The vegetation is varied and forests of low saw palmetto, the cabbage palm, the mangrove, red pine, hickory, white oak and gum trees, and groves of wild orange trees occur in different portions of the State. Deer, bears and panthers abound, also many orders of birds. The hammocks or river bottoms are extremely fertile, and indian corn and cotton are the staples. Oranges, lemons, limes, pine apples, olives and grapes flourish luxuriantly.

The following table shows increase in population for the last 45 years :

1840.....	54,477	1870.....	187,748
1850.....	87,455	1880.....	269,493
1860.....	140,424	1885.....	342,617

The educational and religious facilities meet all the wants of the people.

The census of manufactures for 1880 shows the number of establishments at that time to have been 426. Capital invested, \$3,210,680; number of hands employed, 5,540; total wages paid, \$1,270,875; value of materials, \$3,040,119; value of products, \$5,546,448.

Florida is famous for the number, size and variety of its mineral springs.

MEDICAL LAWS OF FLORIDA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF FLORIDA.

The People of the State of Florida, represented in Senate and Assembly, do enact as follows:
SECTION 1. There shall be appointed by the Governor of this State six boards of medical examiners, consisting of not less than three nor more than five practitioners of medicine, of acknowledged skill and experience, and of five years' practice in this State, said boards to be located respectively at Tallahassee, Jacksonville, Pensacola, Key West, Ocala and Tampa, whose duty it shall be to carefully examine any and all persons not graduates of medicine, who have not heretofore practiced medicine in this State, who may hereafter propose to practice

medicine, surgery or obstetrics in this State, and, if found competent to practice the same, said boards shall issue a certificate to that purport to such person, which certificate shall be recorded in the office of the clerk of the circuit court of each county where the person receiving it may practice.

2. The examination by the boards thus appointed shall include the branches of anatomy, operative and minor surgery, obstetrics, diseases of women and children, and the general laws of health.

3. The said board of medical examiners shall be allowed to charge and receive the sum of five dollars for each person so examined, to be paid upon receipt of certificate of competency by the party examined.

4. That from and after the passage and approval of this act, any person who shall commence the practice of medicine, surgery or obstetrics in this State without first having obtained such certificate and recorded the same, as provided for in section 1 of this act, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by fine not exceeding two hundred dollars nor less than fifty dollars, or imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment, at the discretion of the court: *provided* that the provisions of this act shall not be construed as applying to physicians or surgeons temporarily in the State when sent for to perform surgical operations or for consultation, or to women commonly known and designated as "midwives;" *provided*, further, that this act shall not apply to physicians now in this State.

5. Said board may adopt such rules and regulations as to examinations and certificates as they may deem proper, not inconsistent with the constitution and laws of this State.

6. All laws in conflict with the provisions of this act be and the same are hereby repealed.

Approved March 7, 1881.

The 4th subsection of section 11, General Revenue Laws, provides that lawyers, doctors, dentists, druggists and photographers shall pay, for license tax, ten dollars (\$10) annually.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

Georgia extends from 30° 21' 40" to 35° N. latitude, and from 80° 52' to 85° 35 3" W. longitude, and is bounded on the north by Tennessee and North Carolina, n the east by South Carolina and the Atlantic Ocean, on the south by Florida, nd on the west by Florida and Alabama. It was one of the original 13 States, nd comprises an area of 58,000 square miles or 37,120,000 acres. The Blue idge and Alleghany Mountains traverse the northwestern portion of the State, nd from them there is a gradual slope to the southeast, where is found the great keefinokee Swamp. The principal rivers are the Savannah, Altamaha, Ogeechee, lint and Chattahoochee, the two last uniting from the Apalachicola of Florida. orests of live oak, southern pine, cedar, cypress, magnolia and laurel are numer- us, and occupy vast areas. The difference between the climate in Northern and outhern Georgia is very marked, the summers in the former region being invig- rating and delightful, while in the latter the heat is often very oppressive. At tlanta the mean annual temperature is 58.36° and at Savannah 67°.

Valuable deposits of the best quality of iron ore are found in various portions f the State. Copper and gold also occur. Agriculture is the most important ranch of industry, and corn and cotton are the staples.

The postoffice address is shown in **Display Type**, the name of county in which it is cated immediately follows, and then the population of the place. The names of Physicians ppear under the postoffice name, the first number (the key to which will be found on pages 11 to 120) indicates the college of graduation, and the last number the year in which diploma as granted

JUST OUT. Our handsome Book, **RESEARCHES IN ELECTRO-ALLOTROPIC PHYSIOLOGY**, containing many valuable abstracts on **ELECTRO THERAPEUTICS**, mailed free to those who mention the Medical and Surgical Register of U. S. Address Jerome Kidder M'f'g Co., 820 Broadway, New York. (See p. 1051.)

The following table shows the increase in population for the past half century:

1830	516,823	1860	1,057,286
1840	691,392	1870	1,184,109
1850	906,185	1880	1,542,180

The census of manufactures for 1880 shows the number of establishments at that time to have been 3,593; capital invested, \$20,672,410; number of hands employed, 24,875; total wages paid during the year, \$5,252,952; value of materials, \$24,010,239; value of products, \$36,447,448.

The direct foreign commerce of Georgia is inconsiderable, but its domestic commerce increases steadily.

The State has three universities, numerous colleges and academies, and an excellent public school system. The religious facilities, in proportion to population, equal those of any State in the Union.

The medical institutions of Georgia are : The Medical College of Georgia, Augusta; the Atlanta Medical College, Atlanta; the Georgia Eclectic Medical College, Atlanta, and the Southern Medical College, Atlanta.

There are a number of mineral springs in the State.

Rate of Mortality in Georgia, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
1,542,180	21,549	13.97	10,195	11,354	12.48	15.65

The total number of deaths from consumption during 1880 was 1,718, which was at the rate of 1.10 per 1,000 of population, or 79.72 per 1,000 of total deaths.

MEDICAL LAWS OF GEORGIA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF GEORGIA.

SECTION 1. The General Assembly of Georgia do enact, That no person shall practice medicine within this State unless he has been legally authorized so to do, or shall hereafter be authorized so to do, by a diploma from an incorporated medical college, medical school or university, and by compliance with subsequent sections of this act.

2. Be it further enacted, That, for the purpose of this act, the words "practice medicine" shall mean to suggest, recommend, prescribe or direct, for the use of any person, any drug, medicine, appliance, apparatus or other agency, whether material or not material for the cure, relief or palliation of any ailment or disease of the mind or body, or for the cure or relief of any wound, fracture, or bodily injury or other deformity, after having received or with the intent of receiving therefor, either directly or indirectly, any bonus, gift or compensation.

3. * * * * That every person now lawfully engaged in the practice of medicine within this State, shall, on or before the first day of December, eighteen hundred and eighty-one, and every person hereafter duly qualified to practice medicine, shall before commencing to practice, register in the office of the clerk of the Superior Court of the county wherein he resides and is practicing, or intends to commence the practice of medicine, in a book to be kept for the purpose by said clerk, his name, residence and place of birth, together with his authority for practicing medicine, as prescribed in this act. The person so registering shall subscribe or verify, by oath or affirmation, before a person duly qualified to administer oaths under the laws of this State, an affidavit containing such facts, and whether such authority is by diploma or license, and the date of the same, and by whom granted, which shall be exhibited to the county clerk before the applicant shall be allowed to register, and which, if wilfully false, shall subject the affiant to conviction and punishment for false swearing. The county clerk to receive a fee of fifty cents for each registration, to be paid by the person so registering.

4. * * * * That any registered physician in this State, who may change his residence from one county into another county in this State, shall register within the clerk's office of the county to which he removes, and wherein he intends to reside and to practice medicine, as provided in section three of this act.

5. * * * * That any person who violates any of the four preceding sections of this act, or who shall practice or offer to practice medicine without lawful authority, or under cover of

a diploma or license illegally obtained, shall be deemed guilty of a misdemeanor, and, on conviction, shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars, or by imprisonment for not less than thirty nor more than ninety days, or both. The fine, when collected, shall be paid, the one half to the person, persons or corporation making the complaint, the other half into the county treasury.

6. * * * * That nothing in this act shall apply to commissioned medical officers of the United States army or navy, or to the United States marine hospital service, or to legally qualified dentists in the practice of their profession, or to any woman practicing only midwifery.

7. * * * * That all provisions of laws providing for the organization, qualification and duties of any and all boards of physicians, of any school whatever, be, and the same are hereby, repealed, and there shall henceforth exist in this State no board of physicians, but the only requisite qualifications of practitioners of medicine shall be those hereinbefore set forth.

8. * * * * That all laws or parts of laws in conflict with this act be, and the same are hereby, repealed.

Approved September 28, 1881.

AN ACT TO REGULATE THE GRANTING OF MEDICAL DIPLOMAS.

SECTION 1. Be it enacted, etc., That from and after the passage of this act it shall be unlawful for the faculty or officers of any medical college in the State of Georgia to grant or issue a diploma to any student of medicine, or other person, unless said student or other person shall have attended two or more full courses of study in some regularly chartered medical college in good standing, and shall have submitted to and passed a creditable examination by the faculty or professors of said college upon all the branches usually taught in medical colleges.

2. * * * * That if the faculty or officers of any medical college in this State shall violate any of the provisions of the preceding section of this act, he or they shall be subject to a fine of five thousand dollars, said fine to be collected out of the property of any or all of said faculty or officers of said college. The fine, when collected, shall be paid, the one-half to the person, persons or corporation giving the information, the other half into the county treasury, to be used for educational purposes only.

3. * * * * That all laws and parts of laws in conflict with this act be, and the same are hereby, repealed.

Approved September 27, 1881.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

IDAHO.
CAPITAL, BOISE CITY.

POPULATION OF TERRITORY, 32,610.
(Census of 1880.)

Males	21,818	Native.....	22,636
Females.....	10,792	Foreign.....	9,974
White.....	29,013	Chinese	3,379
Colored	53	Indians	165

Idaho extends from 42° to 49° north latitude, and from 111° to 117° west longitude, and is bounded on the north by British Columbia, on the south by Nevada and Utah, on the east by Montana and Wyoming, and on the west by Washington and Oregon. It comprises an area of 86,294 square miles, or 55,228,160 acres. The Bitter Root mountains, a chain of the Rockies, from the northeastern boundary, and their spurs and extensions occupy a considerable portion of its surface.

The rivers of the Territory are, with the exception of the Bear river, tributaries of the Columbia.

The climate is cool and healthful, the mean annual temperature being 52.46.

Grazing is one of the main industries of Idaho, but all cereals flourish abundantly, the staples being barley, wheat, oats and potatoes.

The Territory is rich in minerals, gold, silver, copper, iron, lead and coal being mined extensively.

Vast forests of red fir, white pine, white cedar, hemlock, tamarack and larch are interspersed over the surface.

The census of manufactures for 1880 shows the total number of establishments at that time to have been 162; capital invested, \$677,215; number of hands employed, 388; total wages paid during the year, \$136,326; value of materials, \$844,874; value of products, \$1,271,317.

The educational and religious advantages are excellent.

There are numerous mineral springs in Idaho, but they have not as yet been used for medicinal purposes. Large quantities of salt are manufactured from the soda springs in the southern portion of the Territory.

Rate of Mortality in Idaho, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
32,610	323	9.90	306	17	10.54	4.72

The number of deaths from consumption during 1880 was 22, which was at the rate of 1.50 per 1,000 of population, or 68.11 per 1,000 of total deaths.

No Territorial Board of Health.

MEDICAL LAWS OF IDAHO.

AN ACT TO PREVENT THE PRACTICE OF MEDICINE AND SURGERY BY UNQUALIFIED PERSONS.

Be it enacted by the Legislative Assembly of the Territory of Idaho, as follows:

SECTION 1. No person shall practice medicine or surgery in this Territory who has not received a medical education and a diploma from some regularly chartered medical school, said school to have a *bona fide* existence at the time when said diploma was granted.

2. Every physician or surgeon, when about to take up his residence in this Territory, or who resides here, shall file for record with the county recorder of the county in which he is about to practice his profession, or where he now practices it, a copy of his diploma, at the same time exhibiting the original or a certificate from the dean of the medical school of which he is a graduate, certifying to his graduation.

3. Every physician or surgeon, when filing a copy of his diploma or certificate of graduation as required by section two of this act, shall be identified as the person named in the papers about to be filed, either by the affidavit of two citizens of the county or by his affidavit taken before a notary public or commissioner of deeds for this Territory, which affidavit shall be filed in the office of the county recorder.

4. Any person practicing medicine or surgery in this Territory without complying with sections one, two and three of this act, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than fifty (\$50) dollars nor more than five hundred (\$500) dollars or by imprisonment in the county jail for a period of not less than thirty days nor more than six (6) months, or by both fine and imprisonment, for each and every offense; and any person filing or attempting to file as his own, the diploma or certificate of graduation of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction shall be subject to such fine and imprisonment as is made and provided by the statutes of this Territory for said offense.

5. It shall be the duty of the police, sheriff or constable to arrest all persons practicing medicine or surgery in this Territory, who have not complied with the provisions of this act, and the officer making the arrest shall be entitled to one-half of the fine collected.

6. No portion of this act shall apply to any person who, in an emergency, may prescribe or give advice in medicine or surgery in a township where no physician resides, or where no physician resides within convenient distance. Nor shall this act apply to midwifery or nurses in cases of childbirth, nor to those who have practiced medicine or surgery in this Territory for a period of ten years next preceding the passage of this act, nor to persons prescribing in their own family.

7. This act shall go into force sixty (60) days after its passage.

Act in operation since 1887.

Before me, Geo. H. Gilbert, a notary public for said county, personally came P. Walter Emens, M. D., of the above county and State, who, being duly sworn according to law, depose and saith that on or about the first day of March, 1884, he purchased of DR. A. W. BRINKERHOFF & SONS, of UPPER SANDUSKY, OHIO, a complete outfit, Instruments, etc., necessary to practice the treatment of Rectal Diseases by the Brinkerhoff System of Treatment.

Since which time he has performed, by said System, about 4,975 treatments, not less, with no deaths resulting from treatment, and I can heartily recommend it to my brother M. D's. He also affirms that he not only has had no deaths as the result of the treatments, but no injury to any of his patients whatever. And, further, deponent saith not. (Signed)

Sworn to and subscribed before me, at the county aforesaid,
this 9th day of February, 1889.

Kelly, who, being duly sworn according to law, depose and saith that on or about the 31st day of August, 1883, he purchased of DR. A. W. BRINKERHOFF & SONS, OF UPPER SANDUSKY, OHIO, a complete outfit, Instruments, etc., necessary to practice the treatment of Rectal Diseases by the Brinkerhoff System of Treatment.

Since which time he has performed, by said System, 9,000 treatments, with not a single death resulting from treatment, and I can heartily recommend it to my brother M. D's. as being the most humane and rational mode of Rectal treatment known. And, further, deponent saith not.

Sworn to and subscribed before me, at the county
aforesaid, this 4th day of February, 1889.

ROBT. C. GURGI,
Dep. Clerk U. S. Dist. Court, S. D. of Ohio.

Illinois extends from 37° 3' to 42° 30' N. latitude, and from 87° 30' to 91° 40' W. longitude, and is bounded on the north by Wisconsin, on the east by Lake Michigan and the State of Indiana, on the south by the Ohio river, which separ-

ates it from Kentucky, and on the west by Iowa and Missouri. It comprises an area of 55,410 square miles, or 35,462,400 acres. The surface is generally level sloping gently from north and east towards the Mississippi and Ohio rivers. It is, however, by no means an unbroken plain, as the many streams which flow through the State have cut deep beds in the yielding alluvial soil, forming in places precipitous slopes and bluffs. The principal rivers are the Mississippi which flows along the western border; the Illinois, which intersects the State laterally; Rock river in the north, the Ohio on the southern border, the Kaskaskia, Wabash, Fox, Spoon, Mackinaw, Embarras and Vermillion, besides many smaller streams.

The climate is very variable, and is marked by great extremes, the summer being warm and the winters extremely cold. The mean annual temperature is about 52°, that of the summer 75° and of the winter 28°. The climate is generally salubrious, except in the low, swampy bottom-lands, where the settlers are subject to chills and fevers. The average annual rainfall is about 35 inches.

Silver, copper, zinc, freestone, gypsum, marble and coal are the principal mineral treasures of Illinois. The soil is exceedingly fertile, and agriculture is the leading industry.

The following table shows the increase in population for 60 years :

1820	55,162	1860	1,711,951
1830	157,445	1870	2,539,891
1840	476,183	1880	3,077,871
1850	851,470		

The census of manufactures for 1880 shows the number of establishments at that time to have been 14,549; capital invested, \$140,652,066; number of hands employed, 144,727; total wages paid during year, \$57,429,085; value of materials, \$289,826,907; value of products, \$414,864,673.

The religious and educational facilities are equal to those of any State in the Union.

There are several mineral springs in Illinois.

The following is a list of the medical colleges in the State : Rush Medical College, Chicago; Chicago Medical College, Chicago; Hahnemann Medical College, Chicago; Bennett College of Eclectic Medicine and Surgery, Chicago; Women's Medical College of Chicago, Chicago; Chicago Homœopathic Medical College, Chicago; College of Physicians and Surgeons of Chicago; the Chaddock College of Medicine, Quincy, and the Physio-Medical Institute, Chicago.

Rate of Mortality in Illinois, as computed from the U. S. Census of 1880.

The number of deaths from consumption during 1880 was 4,653, which was at the rate of 1.50 per 1,000 of population, or 103.36 per 1,000 of total deaths.

BENNETT MEDICAL COLLEGE.

The Regular Term Commences Tuesday, September 24th, 1889, and continues Six Months, closing Tuesday, March 25th, 1890.

At the close of each session there will be chosen, by competitive examination, from the graduates of the session, two internes to serve in the wards of Cook County Hospital for eighteen months as house physicians and surgeons.

Five members of the Faculty of this College have been assigned places on the staff of the Cook County Hospital, one of the best equipped and most extensive Hospitals in the United States.

BENNETT HOSPITAL.

This institution, adjacent to the College Building, and connected with it, contains at all times cases of interest and profit to the student. Students are also supplied, under the supervision of some member of the Faculty, with cases of confinement as opportunity affords.

MEDICAL LAWS OF ILLINOIS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF ILLINOIS.

Passed June 15, approved June 16, and in force July 1, 1887.

SECTION 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That no person shall practice medicine in any of its departments in this State unless such person possesses the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Health for verification as to its genuineness. If the diploma is found genuine, and from a legally chartered medical institution in good standing and if the person named therein be the person claiming and presenting the same, the State Board of Health shall issue its certificate to that effect, signed by all the members thereof, and such certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said Board and submit himself to such examination as the Board may require; and if the examination be satisfactory to the Board, the said Board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

2. The State Board of Health shall organize within three months after the passage of this act; it shall procure a seal, and shall receive, through its secretary, applications for certificates and examinations; the president and secretary shall have the authority to administer oaths and the Board to take testimony in all matters relating to its duties; it shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally chartered medical institutions in good standing, as may be determined by the Board; it shall prepare three forms of certificates, one for persons in possession of such diplomas or licenses, the second for candidates examined and favorably passed on by the Board, and a third for persons to whom certificates may be issued, as hereinafter provided in Section 12 of this act; it shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold its meetings, it shall, as far as is reasonable, accommodate applicants residing in the different sections of the State, and due notice shall be published of all its meetings for examination. Certificates shall be signed by all the members of the Board, and the secretary of the Board shall receive from the applicant a fee of five (5) dollars for each certificate issued to such graduate or licentiate. Graduates or licentiates in midwifery to pay the sum of two (2) dollars for each certificate. All such fees for certificates shall be paid by the secretary into the treasury of the Board.

3. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal; and any person swearing falsely shall be deemed guilty of perjury, and punished accordingly. Graduates may present their diplomas and affidavits, as provided in this act, by letter or by proxy, and the State Board of Health shall issue its certificate the same as though the owner of the diploma was present.

4. All examinations of persons not graduates or licentiates, shall be made directly by the Board, and the certificates given by the Board shall authorize the possessor to practice medicine and surgery in the State of Illinois.

5. Every person holding a certificate from the State Board of Health shall have it recorded

the holder thereof shall not exercise any of the rights or privileges conferred therein on the holder of a certificate in medicine. Any person removing to another county to practice shall record the removal in like manner, in the county to which he removes, and the holder of the certificate shall pay to the county clerk the usual fees for making the record.

The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. If the certificate be a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

The fees for the examination of non-graduates shall be as follows: Twenty (20) dollars for an examination in medicine and surgery; ten (10) dollars for an examination in midwifery. The said fees shall be paid into the treasury of the board. If an applicant fails to pass an examination, his or her fees shall be returned. Upon successfully passing the examination, a certificate of the Board shall be issued to the applicant without further charge.

Examinations may be made in whole or in part in writing, and shall be of an elementary character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

The State Board of Health may refuse to issue the certificates provided for in Section 2 of this act in cases of unprofessional or dishonorable conduct, and it may revoke such certificates for like causes. In all cases of refusal or revocation the applicant may appeal to the court, who may affirm or overrule the decision of the Board, and this decision shall be final.

Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat, operate on, or prescribe for any physical ailment of another. But nothing in this act shall be construed to prohibit service in cases of emergency, or the domestic administration of family remedies. And this act shall not apply to commissioned surgeons of the United States Army, Navy or Marine Hospital service, in the discharge of their official duties. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, or who shall, by writing or printing or any other method, pretend to cure or treat disease or deformity, by any drug, nostrum, manipulation or other method, shall pay a license of one hundred (100) dollars per month into the treasury of the State, to be collected by the State Board of Health, in the name of the People of the State of Illinois, for the use of said Board of Health. And it shall be lawful for the State Board of Health to issue such license on application made to the State Board of Health, such license to be signed by the president of the Board, and attested by the secretary of the Board, with the seal of the Board. Any such itinerant vendor who shall vend or sell any such drug, nostrum, ointment or appliance without having a license so to do, shall, if found guilty, be fined in any sum not less than one hundred dollars, and not exceeding two hundred dollars, for each offense, and may be recovered in an action of debt before any court of competent jurisdiction. But the court may, for sufficient cause, refuse such license.

Amendatory.] Any person practicing medicine or surgery in the State, without the license issued by this Board in compliance with the provisions of this act, shall, for each offense, forfeit and pay to the People of the State of Illinois, for the use of the said State Board of Health, the sum of one hundred (100) dollars for the first offense, and two hundred (200) dollars for each subsequent offense, the same to be recovered in an action of debt before any court of competent jurisdiction, and any person filing or using as his own the diploma or certificate of another, or a forged affidavit of identity, shall be guilty of a felony, and upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of the State for the crime of forgery. And that all persons who have been practicing medicine continuously for ten years in this State, prior to the taking effect of the act to which this is an amendment, and who, under said original act, obtained a certificate from the said Board of Health to practice in this State, shall upon proper application to said Board of Health receive such certificate, unless it shall be ascertained and determined by said Board of Health, that the person applying for a certificate is of immoral character, or guilty of unprofessional or dishonorable conduct, in which case, said Board of Health may reject such application; and that such application for a certificate shall be made within six months after the taking effect of this act, and all persons holding a certificate on account of ten years' practice shall be subject to all the requirements and discipline of this act, and the act to which this is an amendment, in regard to their future conduct in the practice of medicine the same as persons holding certificates, and all persons not having applied for or received such certificate within six months after the taking effect of this act, and all persons whose applications have for the causes herein named been rejected or certificates revoked, shall, if they practice medicine, be deemed guilty of practicing in violation of law, and shall suffer the penalties herein provided.

Upon conviction of either of the offenses mentioned in this act, the court shall, as a part of its judgment, order that the defendant be committed to the common jail of the county until the costs are paid, and upon failure to pay the same immediately, the defendant shall be held under said order. *Provided*, that either party may appeal in the same time and manner as appeals may be taken in other cases, except that when an appeal is prayed in behalf of the people, no appeal bond shall be required to be filed, whether the appeal be from a justice of the peace, or from the county or circuit court, or from the appellate court. But it shall be lawful, in behalf of the People of the State of Illinois, for the use of the State Board of Health, to file an appeal, and thereupon appeal may be had without bond or security.

All acts and parts of acts inconsistent or in conflict with this act, are hereby repealed.

ILLINOIS STATE BOARD OF HEALTH.

Springfield, Ill. John H. Rauch, M. D., Secretary of the Board.

Organized July, 1877. Consists of seven members, appointed by the Governor of the State for terms of seven years each. Its relations with medical education and medical colleges arise from the duties devolved upon it, and the powers and authority vested in it, by the Act to Regulate the Practice of Medicine in the State of Illinois, approved June 16, 1887, in force July 1, 1887. Among such duties, powers and authority are the examination and verification of diplomas presented as the basis for certificates entitling their lawful holders to practice medicine within the State, and the issue of such certificates; the determination of the standing of legally chartered medical institutions; the examination of non-graduates as to their qualifications as practitioners, and the issue of certificates or licenses to practice to such as pass satisfactory examinations; the refusal of certificates to individuals guilty of unprofessional and dishonorable conduct, and the revocation of certificates for like causes. The law also applies to midwives.

Since its organization, and up to the date of this revision, January 1, 1889, the BOARD has examined and verified the diplomas and licenses of 267 institutions and licensing bodies. Of this number it has definitely rejected the diplomas of 25 institutions, on ground of fraud and other gross invalidity; it has required the diplomas of 26 other institutions to be supplemented by examination, and it has issued certificates based on the diplomas of legally-chartered medical institutions in good standing to 8,217 practitioners, and to 215 others on diplomas supplemented by examination. These last (the 215) have only been issued since the enforcement of the Schedule of Minimum Requirements; that is, to graduates of the sessions since 1882-83.

Of the total number of applicants for certificates on diplomas, 2,183 were rejected, or withdrew their applications, or were unable to complete them, or in some other manner failed to comply with the requirements of the law; and these, as a rule, either abandoned practice or left the State. In a number of cases, however, the rejected or defective candidates subsequently attended lectures at a reputable medical college, were graduated therefrom, and certificates were issued them upon their diplomas.

The foregoing figures and comments refer only to applicants for certificates based upon diplomas, and do not embrace the non-graduates and exempts. Including these, the law has applied to a total of nearly 14,200 individuals, exclusive of midwives. Of this number, there are now in practice in the State, in round numbers, about 5,850 physicians, classified as follows: 1. Graduates holding certificates based upon diplomas of legally chartered medical institutions in good standing, as defined by the BOARD. 2. Graduates since the sessions of 1882-83, whose diplomas were required to be supplemented by examination in order to conform to the standard of Minimum Requirements of the BOARD. 3. Non-graduates who have passed the examination prescribed by the law. 4. Non-graduates exempt by reason of having been engaged in practice in the State upwards of 22 years.

The number of rejected applicants shows a diminution of late years, as the requirements of the law come to be more clearly defined and more generally understood. For the entire period the percentage of rejections and withdrawals has been 16; but during the past two years they have averaged only 12 1 per cent.—in 1884 there were 117 in 597 applicants, in 1885 there were 114 in 575 applicants, in 1886 there were 74 in 514 applicants, in 1887 there were 69 in 523 applicants, and in 1888 there were 50 in 455 applicants. Refusals of certificates are based upon one or more of the following grounds:

1. Failure to present a diploma from a legally-chartered medical institution in good standing, as defined by the Board.
2. Failure to sustain a satisfactory examination sufficiently strict to test the qualifications of the candidate for the practice of medicine.
3. Personal or professional antecedents, habits or association, warranting the charge of unprofessional and dishonorable conduct.
4. Proved intent to practice in an unprofessional and dishonorable manner, as by claiming to cure incurable maladies; to possess unusual skill, experience or facilities; and similar claims involving deceit and fraud upon the public.

The Board has revoked 41 certificates for unprofessional and dishonorable conduct.

Non-graduate applicants for license to practice in Illinois are required to submit to examination, in accordance with the following provisions of the Medical-Practice Act:

The State Board of Health * * * shall receive through its Secretary applications for certificates and examinations. * * * If not a graduate, the person practicing medicine in this State shall present himself before said Board, and submit himself to such examination as said Board shall require; and if the examination be satisfactory to the examiners, the said Board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

§ 3. * * * It shall prepare three forms of certificates, one for persons in possession of diplomas or license; one for candidates examined by the Board; and a third for such persons who have been engaged in the practice of medicine for upwards of 22 years, and shall furnish to the county clerks of the several counties a list of all persons receiving certificates.

§ 8. Candidates for examination shall pay a fee of twenty dollars, in advance, which shall be returned to them if a certificate be refused.

§ 9. Examinations may be made wholly or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

All examinations of persons not graduates or licentiates must be made directly by the Board, and the certificate given by the Board authorizes the possessor to practice medicine and surgery in the State of Illinois.

Where the candidates have any special views of theory and practice of medicine or of therapeutics, respect is paid to such views, and they are allowed, upon request, to appear

KEFIR KUMYSS

OR

MILK WINE.

The Tartars employed a ferment denominated "kefir," which is to be found only in their native country. For a long time difficulties lying in the way of the production of an artificial Kumyss from the bovine fluid were due to insufficient chemical knowledge of the constituency of the original article as well as to the inability to procure undoubted samples of the ferment. These difficulties, we are happy to state, have been overcome, and we are prepared to furnish a Kefir Kumyss made strictly according to Hartier's analysis of original Kumyss, and our long experience in its manufacture leads us to confidently claim for it a decided superiority over all preparations of Kumyss on the market. Many leading physicians attest to the peculiarly excellent properties of this Kumyss and to the exceptionally satisfactory results obtained by its use; they have secured all the beneficial results that are claimed for it by its most enthusiastic admirers, thus distinguishing it above all other preparations of Kumyss hitherto presented to the medical profession.

The constituents of this Kumyss are such as are required to produce blood, bone, and muscle, which stamps it pre-eminently as a food to the human body. It is preferable to unfermented milk, because coagulation has taken place, thereby relieving, mayhap, an already weakened stomach of a portion of its labor; the precipitated casein, the nourishing constituent, is precipitated in a very finely divided condition (differing from many other brands of Kumyss in which the casein occurs in large, dense, almost indigestible clots); the hemi-albuminose and peptone are also nourishing and aid assimilation of the casein; carbonic acid is present in the free state, and exerts a sedative action; and the free lactic acid and small percentage of alcohol act as stimulants and still further aid digestion.

There are three grades of Kumyss: new, medium, and old. **New** Kumyss is suitable for infants and for catarrhal conditions of the stomach in adults; it is slightly purgative. **Medium** Kumyss for dyspepsia, feeble or imperfect digestion, and as a dietetic for convalescents after fever, etc. **Old** Kumyss is drunk as a tonic and invigorator. During the summer Kumyss must be kept on ice; in winter it may be kept in a cool cellar, where the temperature is about 50° F.

Price per Bottle, 35c.; per dozen, \$4.00; Champagne Tap, 75c.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 190) indicates the college of graduation, and the second number indicates the year of graduation.

INDIANA.

CAPITAL, INDIANAPOLIS.

POPULATION, 1,978,301.

(Census of 1880.)

Males.	1,010,361	Native.....	1,834,123
Females.....	967,940	Foreign.....	144,178
White.....	1,938,798	Chinese	29
Colored.....	39,228	Indians.....	246

Indiana extends from 37° 51' to 41° 46' N. lat., and from 85° 48' to 88° 1' W long., and is bounded on the north by Michigan and Lake Michigan, on the south by the Ohio river, which separates it from Kentucky, on the east by Ohio, and on the west by Illinois. It comprises an area of 33,809 square miles, or 21,737,760 acres. The surface is generally level, with the exception of the eastern portion, which has an average elevation of from 700 to 900 feet. The alluvial soil readily yields to the erosive power of running water, and most of the rivers have cut their beds deep into the ground, forming what are locally known as "river hills." The vast forests are rapidly disappearing. They consist chiefly of black walnut, oak, ash, maple, poplar, tulip, beech, sycamore and other deciduous trees. The principal rivers are the Ohio, which washes the southern portion of the State, the Wabash, the Calumet, the White, St. Joseph, and many smaller streams.

The climate is salubrious, and is somewhat milder than is experienced in the same latitudes on the Atlantic coast. The winters are cold, but not of long duration, and the summers are often very hot. The mean annual temperature, as observed at Indianapolis, is 51°, that of the summer 72.64° and of the winter 28.71°. The average annual rainfall is about 43 inches.

Indiana is mainly an agricultural State, the river bottoms being extremely fertile and yielding rich returns. Indian corn is the staple. Coal and iron are the principal minerals.

The following table shows the increase in population for 60 years :

1820	147,178	1860.....	1,350,428
1830.....	343,031	1870.....	1,680,637
1840.....	685,866	1880.....	1,978,301
1850.....	988,416		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 11,198; capital invested, \$65,742,962; number of hands employed, 69,508; total wages paid during year, \$21,960,888; value of materials, \$100,260,892; value of products, \$148,006,411.

The following is a list of the Medical Colleges in Indiana: Physio-Medical College of Indiana, Indianapolis; Medical College of Indiana, Indianapolis; Central College of Physicians and Surgeons, Indianapolis; Fort Wayne College of Medicine, Fort Wayne; Indiana Eclectic Medical College, Indianapolis; Curtis Physio-Medical Institute, Marion.

The religious and educational facilities leave nothing to be desired.

Rate of Mortality in Indiana, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
1,978,301	31,213	15.78	44.185	832	14.57	17.80

The number of deaths from consumption during 1880 was 3,943, which was at the rate of 1.90 per 1,000 of population, or 126.32 per 1,000 of total deaths.

MEDICAL LAWS OF INDIANA.

SECTION 1. *Be it enacted by the General Assembly of the State of Indiana*, That it shall be unlawful for any person to practice medicine, surgery or obstetrics in this State without first obtaining a license so to do, as hereinafter provided.

2. Any person desiring to practice medicine, surgery or obstetrics in this State shall procure from the clerk of the Circuit Court of the county wherein he or she desires to practice, a license so to do, which license shall be issued to such person only when he or she shall have complied with the following conditions, to wit: When such applicant shall file with such clerk his or her affidavit, and the affidavits of two freeholders or householders of the county, stating that such applicant has regularly graduated in some reputable medical college, and shall exhibit to such clerk the diploma held by such applicant; or when such applicant shall file with such clerk his or her affidavit stating that he or she has resided and practiced medicine, surgery and obstetrics in this State, continuously, for ten years immediately preceding the date of the taking effect of this act; or when such applicant shall file with such clerk his or her affidavit stating that he or she has resided and practiced medicine, surgery and obstetrics in this State continuously, for three years immediately preceding the date of the taking effect of this act, and had, prior to said date, attended one full course of lectures in some reputable medical college. Such applicant shall pay to such clerk, for such license, the sum of one dollar and fifty cents, and such clerk shall record such license, together with the name of the college in which such applicant graduated and the date of his or her diploma, in a book to be kept for such purpose, and which shall be a public record.

3. Any clerk who shall issue a license to practice medicine, surgery or obstetrics to any person who has not complied with the requirements of Section 2 of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined in any sum not less than twenty-five dollars, nor more than one hundred dollars, and such license, or one procured by any false affidavit, shall be deemed and held to be void.

4. Any person who shall practice medicine, surgery or obstetrics in this State, without having first procured from the clerk of the Circuit Court of the county wherein he or she shall so practice, a license, as provided in this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than ten dollars, nor more than two hundred dollars: *Provided*, That this act shall not be deemed to prohibit women from practicing obstetrics, and such midwives are hereby expressly exempted from its provisions.

5. No cause of action shall lie in favor of any person for services as physician, surgeon or obstetrician, who had not, prior to the rendition of such services, procured a license to practice, as herein provided for, and any person who shall pay any sum of money or deliver any property for any such services to any person who is not so licensed, may recover the same, or the value thereof, in any court of competent jurisdiction in this State.

6. The following shall be the form of this act: The clerks of the Circuit Courts shall appropriately fill up the blanks, and issue the same under the seal of their respective courts, to wit: The State of Indiana, _____ County, ss: I, _____, Clerk of the Circuit Court of _____, in said State, do hereby certify that _____ has complied with the laws of the State of Indiana relating to the practice of medicine, surgery and obstetrics, and is hereby authorized to practice medicine, surgery and obstetrics in said county. Witness my hand and the seal of said court, this _____ day of _____, 18____, Clerk.

7. This act shall take effect and be in force from and after the first day of September, 1885.

LAS VEGAS HOT SPRINGS, NEW MEXICO.

This delightful health and pleasure resort is situated on the Southeastern slope of the Santa Fe Range of the Rocky Mountains, at an elevation of nearly 7,000 feet above the sea. The Springs, some forty in number, vary in temperature from very warm to entirely cold, and are very widely celebrated for their curative effects upon almost all forms of chronic disease. The bathing facilities are unequalled. The climate is unexcelled for clearness and brightness, and the proportion of sunny to cloudy days is about ten to one, either in winter or summer. The location is a beautiful one, in the midst of Mountain Scenery, affording opportunity for walks, drives, climbing, and continuous out-door life, without hardship or exertion. Every accessory of woods, rocks, running water, flowers, brilliant sunshine, and magnificent distance is present.

THE MONTEZUMA HOTEL

Is a commodious and massive structure of stone--the finest watering-place hotel west of the Alleghenies. It has every convenience of modern times, and is elegantly furnished and supplied.

The Springs and Hotel are located on a branch of the main line of the SANTA FE ROUTE, six miles from the town of Las Vegas, New Mexico; is readily accessible by telegraph, telephone, and four passenger trains per day. It is extensively used as a resting and bathing place by trans-continental tourists by this celebrated route, as well as by all classes of rest, pleasure, and health seekers from every part of the country. Pamphlet, describing Hotel, Springs, and points of interest in that vicinity, will be sent postage prepaid upon addressing

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 31 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

JUST OUT. Our handsome Book, **RESEARCHES IN ELECTRO-ALLOTROPIC PHYSIOLOGY**, containing many valuable abstracts on **ELECTRO THERAPEUTICS**, mailed free to those who mention the Medical and Surgical Register of U. S. Address Jerome Kidder M'f'g Co., 820 Broadway, New York. (See p. 1051.)

Therapeutic Note of One of the Newer Medicaments.

CONDURANGO WINE.

Although Condurango has not entirely justified the claims made for it in the treatment of Cancer, the experiments made with it have demonstrated its utility as a stomachic, and in the form of Condurango Wine it has grown to be very much in demand, especially in Europe. One fluidounce of the Wine represents 60 grains of Condurango Bark. Dose, one-half to one fluidounce. PARKE, DAVIS & CO. supply the Wine, and also a fluid and solid extract of this drug, and will also mail, on request, a working bulletin on Condurango to Physicians who wish more detailed information concerning it.

INDIAN TERRITORY.

POPULATION, 75,000.

(Estimated, 1880.)

The Territory is bounded on the north by Kansas and Colorado, on the south by Texas, on the east by Missouri and Arkansas and on the west by Texas and Colorado, and comprises an area of 68,991 square miles, or 44,154,240 acres. It forms part of that vast inclined plane which slopes gradually down from the base of the Rockies to the Mississippi river. The valleys of the rivers in the eastern portion are fertile, but the western part belongs to what was originally known as the "Great American Desert." The Arkansas, Red and Canadian rivers with their tributaries drain the Territory. The climate is warm and dry, the southeastern being the hottest and the northwestern the coldest portion; the mean annual temperature in the former is 60° and the latter 55° The annual rainfall varies from 52 inches in the southeastern to 20 in the northwestern corner. The river borders are fringed with cottonwoods and the land is mostly prairie.

The Indians have made considerable advances in civilization during the past few years, have newspapers printed in their own language, good schools and are engaged in agriculture and a few branches of manufacturing. No reliable statistics regarding the Territory are obtainable.

NOTE.—The populations given in the sketches of the Territory refer to the whites and civilized Indians only. The other Indians not being considered citizens, are not included in the census reports, and reliable statistics as to their numbers are not obtainable.

MEDICAL LAWS OF INDIAN TERRITORY.

MEDICAL LAWS OF THE CHEROKEE NATION RELATING TO PHYSICIANS.

SECTION 144. The principal chief is authorized and required to appoint a board of physicians, to consist of three persons who are regular graduates of some well authenticated medical school, and residents of the Nation, whose duty it shall be to examine all persons not citizens of the Nation who have located or may locate hereafter within the limits of said Nation for the purpose of practicing medicine.

SECTION 145. Any person desiring to come before the board for examination shall make his or her application to the president of the board in writing, and shall accompany such application with sufficient references of his or her moral character in the community in which he or she resided in the year previous, and shall also accompany such application with the endorsement of four or more citizens of the Nation, resident in the vicinity where the applicants may desire to practice medicine. Such application shall likewise be accompanied with the sum of twenty-five dollars, which shall be the fee for examination.

SECTION 146. Any person coming before the board and standing a satisfactory examination shall be furnished a certificate of the same, and, upon presentation of such certificate to the United States Indian Agent, he is requested to grant the holder thereof a permit to reside in the Cherokee Nation for one year for the purpose only of practicing medicine, and to renew annually such permit upon satisfactory evidence of good behavior.

SECTION 147. Any person not a citizen, and claiming to be a physician, and failing to comply with the provisions of this act, shall be deemed an intruder and dealt with accordingly; and it shall be the duty of said board to report to the principal chief any person making application and failing to pass a satisfactory examination (November 24th, 1873).

SECTION 148. The principal chief is authorized to grant the holder of a certificate of a satisfactory examination from the "board of physicians" a permit to remain within the Cherokee nation under the same terms and conditions as the act of November 24th, 1873, grants to the United States Indian Agent.

SECTION 149. Any physician lawfully practicing his profession within the Nation may collect in the same manner and upon the same conditions as other debts are collected before any of the courts of the Nation, not exceeding 75 cents per mile in going to visit a patient, during the hours from sunrise to sunset, and not exceeding one dollar per mile from sunset to sunrise. (December 7th, 1878).

MEDICAL LAWS OF THE CHOCTAW NATION.

CHAPTER IX. SECTION IV. THE PRACTICE OF MEDICINE.

1. The principal chief is authorized and required to appoint a board of physicians to consist of three persons, citizens of the Choctaw Nation, who are regular graduates of some well known medical college, and residents of said Nation, whose duty it shall be to examine all persons not citizens of this Nation, who have located, or may locate hereafter, within the limits of said Nation for the purpose of practicing medicine.

2. Any person desiring to come before the board for examination, shall make application in writing to said board, and shall accompany such application with sufficient references of his or her moral character, by four or more citizens of the Nation of good standing, to whom the applicant is known. The fee for the examination of each applicant shall be twenty-five dollars, and in default of the payment of which in advance, the board are not required to make the examination.

3. If an applicant shall stand a satisfactory examination, or shall hold a diploma such as may be satisfactory to said board, they shall grant said applicant a certificate upon which the principal chief shall authorize the judges of the county courts to grant a permit to such applicant to practice medicine; and without the authority of the principal chief, as above mentioned, the county judge is hereby prohibited from granting the same.

4. Any person, not a citizen, who shall practice medicine in this Nation in violation of the provisions of this act, shall be held to be an intruder and dealt with accordingly.

Permit costs \$10, and has to be renewed annually.

CREEK NATION.

J. R. BREWER, M.D., of Muskogee, writes:

"There is no Creek law regulating the practice of medicine further than you pay \$25 per annum for the privilege of practicing medicine in the Creek Nation. Anyone is permitted to practice who pays said permit, whether he knows anything about medicine or the human system or not."

Iowa extends from 40° 25' to 43° 30' north latitude, and from 90° 18' to 96° 53' west longitude, and is bounded on the north by Minnesota, on the south by Missouri, on the east by Wisconsin and Illinois, and on the west by Dakota and Nebraska. It comprises an area of 55,045 square miles, or 35,228,800 acres, and forms part of an immense plain, unbroken by any mountain ranges. The Mississippi, which flows along the eastern border, and the Missouri, which washes the western shore, are the two great rivers of the State, and all the other rivers of Iowa are tributary to one or other of these mighty streams. The Des Moines, Red Cedar, Iowa, Skunk, Maquoketa and Turkey, are all tributaries of the Mississippi, and the Chariton, Grand Platte, Ncdaway, etc., belong to the Missouri drainage system. The climate is salubrious and is not marked by unhealthy extremes, the mean annual temperature, as observed at Des Moines, being 48.94°, that of the summer 71.80°, and of the winter 25.39°. The average amount of rainfall is about 43 inches. Iowa is pre-eminently an agricultural State, and offers to the farmer and stock raiser advantages unsurpassed by any State in the Union, the soil being extremely fertile and productive. The principal minerals are coal, lead, iron, zinc and copper. Marble, limestone and freestone are found in large quantities.

The following table shows increase in population since 1840 :

1840.....	43,112	1870.....	1,194,024
1850.....	192,214	1880.....	1,624,615
1860.....	674,963	1885.....	1,753,980

The supply of timber, though not abundant, is sufficient to meet the home demand. The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 6,921; capital invested, \$33,987,886; number of hands employed, 28,372; total wages paid during the year, \$19,725,962; value of materials, \$48,704,311; value of products, \$71,045,926. Iowa possesses excellent religious and educational advantages.

MEDICAL LAWS OF IOWA.

REGULATING THE PRACTICE OF MEDICINE.

[Chapter 104, Laws of 1886.]

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF IOWA.

Be it enacted by the General Assembly of the State of Iowa :

SECTION 1. That every person practicing medicine, surgery or obstetrics, in any of their departments, within this State, shall possess the qualifications required by this act. If a graduate in medicine such person shall present his or her diploma to the State Board of Examiners, for verification as to its genuineness. If the diploma is found genuine, and is issued by a medical school legally organized and of good standing, of which the State Board of Examiners shall determine, and if the person presenting and claiming such diploma be the person to whom the same was originally granted, then the State Board of Examiners shall issue its certificates to that effect signed by not less than five physicians thereof, representing one or more physicians of the schools on the board, and such certificate shall be conclusive as to right of the lawful holder to practice medicine, surgery and obstetrics within this State. If not a graduate, the person practicing medicine or surgery within this State, unless he or she shall have been in continuous practice in this State for a period of not less than five years, of which he or she shall per-

sent to the State Board of Examiners satisfactory evidence in the form of affidavits, shall appear before said State Board of Examiners, and submit to such examination as said board may require. All examinations shall be conducted in writing, and all examination papers, together with the reports and action of the examiners thereon, shall be preserved as the records of said board for the period of five years, during which time they shall remain open for inspection at the office of the said State Board of Examiners. Such examinations shall be in anatomy, physiology, general chemistry, pathology, therapeutics and the principles and practice of medicine, surgery and obstetrics. *Provided*, that each applicant upon receiving from the secretary of the board an order for an examination shall receive also a confidential number, which he or she shall place upon his or her examination papers so that when said papers are passed upon by the examiners, the latter shall not know by what applicant said papers have been prepared. That upon each day of examination all candidates be given the same set or sets of questions. It is further provided that the examination papers shall be marked upon the scale of one hundred (100), and that in order to secure a license it shall be necessary for the applicant to attain such average as shall hereafter be determined by the State Board of Examiners, and if such examination be satisfactory to at least five physicians of said board, representing the different schools of medicine on the board, the board shall issue a certificate which shall entitle the lawful holder thereof to all the rights and privileges herein provided, and the physicians and the secretary of the State Board of Health shall constitute and be deemed a board of examiners for the purpose of this act.

2. The State Board of Examiners shall procure a seal within sixty days after the passage of the act, and through the secretary of said board shall receive applications for certificates and examinations. The president, or any member of the board, shall have the authority to administer oaths and take testimony in all matters relating to their duties as examiners aforesaid. The board shall provide three forms of certificates; one for persons in possession of genuine diplomas, one for candidates examined by the board, and one for persons who have practiced medicine or surgery in any of its departments for five years as provided in this act. Said certificates shall be signed by not less than five physicians of the board, and this number may act as an examining board in the absence of the full board: *Provided*, that one or more members of the different schools of medicine represented in the State Board of Health shall also be represented in the board of examiners. The board of examiners shall hold meetings at such places as will best accommodate applicants residing in different portions of the State, and at any such time as they shall deem best, and due notice of the time and place of such meetings shall be published.

3. The board shall examine all diplomas submitted to them for such purpose to determine their genuineness and the rightful ownership of the person presenting the same. The affidavit of the applicant and holder of any diploma that he or she is the person therein named, and is the lawful possessor thereof, shall be necessary to verify the same, with such other testimony of [as] the board may require. Diplomas and accompanying affidavits may be presented in person or by proxy. If the diploma shall be found genuine, and in possession of the person to whom it was issued, the State Board of Examiners shall, upon the payment of a fee of two dollars, to the secretary of the board, issue a certificate to the holder of such diploma, and no further fee or sum shall be demanded or collected from said applicant by said board for such certificate. If the diploma shall be found to be fraudulent, or not lawfully in possession of the holder or owner thereof the person presenting such diploma or holding or claiming possession thereof, shall be deemed guilty of a misdemeanor, and on conviction thereof, before any court of competent jurisdiction, be fined not less than twenty dollars nor more than one hundred dollars.

4. Every person holding a certificate issued by the State Board of Examiners, shall, within sixty days after the date of such certificate, have the same recorded in the office of the county recorder in the county wherein he resides, and should he remove from one county to another to practice medicine, surgery or obstetrics, his certificate must be recorded in the county to which he removes. The county recorder shall endorse upon the certificate the date of record, and he shall be entitled to charge and receive a fee of fifty cents for his services, the fee to be paid by the applicant.

5. The county recorder shall record in a book, provided for that purpose, a complete list of the certificates presented for record, and the date of their issue by the State Board of Examiners. If the certificate is issued by reason of a diploma, the name of the medical college conferring the same, and the date when conferred, shall be recorded; and when such certificate shall have been granted upon the examination of the board, or because of five years' practice in the State, such fact shall be recorded. Said records shall be open for inspection during business hours.

6. Candidates for examination shall pay in advance to the secretary of the State Board of Examiners a fee of ten dollars, which fee, together with the fees received for certificates, shall defray the entire expense of the aforesaid Board of Examiners, and the balance shall be turned over to the State treasurer for the benefit of the school fund, except such an amount as will pay each member of the Board ten dollars (\$10) per day during the time he is in actual attendance upon the session of the said Board for the purpose of performing the duties required of him under this act, and as will pay the secretary of the Board such a salary as they may allow, not to exceed five dollars per day during the time he is actually engaged in performing the work of the Board under this act, and each member of the Board of Examiners shall also receive a sufficient amount to defray his actual and necessary expenses while in the discharge of the duties herein provided. Any one failing to pass the required examination shall be entitled to a second examination within twelve months without fee, *provided*, that any applicant for examination by notice in writing to the secretary shall be entitled to an examination within three months from the time of said notice, and a failure to give such opportunity, shall entitle such applicant to practice without the certificate required by this act until the next regular meeting of said Board. *Provided, further*, the Board may also issue certificates to persons who, upon application, present a certificate of having passed a satisfactory examination before any other State Board of Medical Examiners, upon the payment of the fee as provided in Section three, Chapter 66, Laws of 1888.

7. The State Board of Examiners may refuse to grant a certificate to any person who has been convicted of a felony committed in the practice of his profession or in connection therewith or may revoke certificates for like cause, or for palpable evidence of incompetency, and such refusal or revocation shall prohibit such person from practicing medicine, surgery or obstetrics, provided such refusal or revocation of a certificate can only be made with the affirmative vote of at least five physicians of the State Board of Examiners, in which number shall be included one or more members of the different schools of medicine represented in said board; and provided further, that the standing of a legally chartered medical college, from which a diploma may be presented, shall not be questioned except by a like vote.

8. Any person shall be deemed as practicing medicine, surgery or obstetrics, or to be a physician within the meaning of this act, who shall publicly profess to be a physician, surgeon or obstetrician, and assume the duties, who shall make a practice of prescribing or of prescribing and furnishing medicines for the sick, or who shall publicly profess to cure or heal, by any means whatsoever, but nothing in this act shall be construed to prohibit students of medicine, surgery or obstetrics from prescribing under the supervision of preceptors, or gratuitous service in case of emergency, nor shall this act extend to prohibit women who are at this time engaged in the practice of midwifery, nor to prevent the advertising, selling or prescribing natural mineral waters flowing from wells or springs; nor shall this act apply to surgeons of the United States army or navy, marine hospital service, nor to physicians as defined herein who have been in practice in this State for five consecutive years, three years of which time shall have been in one locality; *provided*, such physician shall furnish the State Board of Examiners satisfactory evidence of such practice, and shall procure the proper certificate, as provided in this act, and for which certificate such physician shall pay the secretary of the State Board of Examiners a fee of two dollars, and said board shall issue to the applicant such certificate, nor shall this apply to registered pharmacists when filling prescriptions, nor shall it be construed to interfere with the sale of patent or proprietary medicines in the regular course of trade.

9. Any person who shall practice medicine or surgery within this State, without having complied with the provisions of this act, and who is not embraced in any of the exceptions or after being prohibited from so doing as provided in section 7 of this act, shall be deemed guilty of a misdemeanor, and shall on conviction thereof, be punished by a fine of not less than fifty nor more than one hundred dollars, or by imprisonment in the county jail not less than ten days nor more than thirty days.

10. Any person who shall file, or attempt to file, with the State Board of Examiners, as his or her own, the diploma of another person, or who shall file, or attempt to file with the county recorder the certificate of another person, as his or her own, or who shall file or attempt to file a diploma or certificate with the true name erased therefrom and the claimant's name inserted, or who shall file or attempt to file any forged affidavit or identification, shall be deemed guilty of the crime of forgery.

[SECTION 10. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, who shall by writing or printing, or any other method, publicly profess to cure or treat diseases, or injury or deformity by any drug, nostrum, or manipulation or other expedient, shall pay a license of one hundred dollars per annum, to be paid to the treasurer of the commission of pharmacy, whereupon the secretary of said commission shall issue such license for one year. Any person violating this section shall be deemed guilty of a misdemeanor, and shall, upon conviction, pay a fine of not less than one hundred nor more than two hundred dollars.]—Chapter 75, Laws of 1878, as amended by Chapter 137, Laws of 1882.)

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

COCAINE TABLETS.

These Tablets are now largely used by careful Physicians for Extempora-
neous Preparation of any desired strength Cocaine Solution. The rapid
deterioration of Cocaine Solutions make these Tablets a necessity. To make
a two per cent. solution of Cocaine: in one fluidrachm of water dissolve one
Cocaine Tablet 1½ grain. To make a four per cent. solution of Cocaine: in
one fluidrachm of water dissolve one Cocaine Table 2½ grains. To make a
ten per cent. solution of Cocaine. i n one fluidrachm of water dissolve five
Cocaine Tablets 1½ grain; or dissolve two 2½ grains and one 1½ grain Tablets
in one fluidrachm of water. PARKE, DAVIS & CO., DETROIT, MICH.,
guarantee the purity and anæsthetic efficiency of their Cocaine product and
will send samples of their Cocaine Tablets to Physicians if desired.

Kansas lies within the meridians of 94° 37' and 102° west longitude and the parallels 37° and 40° north latitude, and is bounded on the north by Nebraska, on the south by the Indian Territory, on the east by the Missouri River and the State of Missouri, and on the west by Colorado. It is the central State of the Union, being equi-distant from the Pacific and Atlantic oceans on the west and east, and the British possessions and Mexico on the north and south, and contains an area of 81,318 square miles, or 52,043,520 acres.

The surface slopes gently from the base of the Rockies to the Mississippi, but is diversified with river hills formed by the action of the water on the yielding soil. The principal rivers are the Missouri, which washes the northeastern boundary; the Kansas, which, with its affluents, the Smoky Hill, Delaware, Blue, Republican, Solomon and Saline rivers, drains the northern portion of the State and empties into the Missouri; the Arkansas, which drains all Southern Kansas, and the Osage, which flows through the east and central portion of the State.

The climate is mild and healthful, the mean annual temperature as observed at Lawrence being about 53°—that of the summer 75.82° and of the winter 31.65°. The average annual rainfall is about 31.75 inches. The river bottoms are covered by dense forests of the different deciduous trees common to this latitude, and the eastern uplands are rich prairies. Coal, iron, salt, gypsum, alum and petroleum are found in paying quantities, the supply of coal being amply sufficient to meet the home demand. The principle industry is agriculture, the eastern half of the State being specially adapted to farming and the western to grazing.

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,803; capital invested, \$11,192,315; number of hands employed, 12,064; total wages paid during the year, \$3,999,599; value of materials, \$21,407,941; value of products, \$30,790,212.

Kansas is well provided with churches, colleges and schools, and, in proportion to its population, ranks second to no State in the Union in these particulars.

The following table shows the increase in population for the past 29 years :

1860.....	107,206	1880.....	996,096
1870.....	373,299	1885.....	1,268,562
		1889.....	1,518,552

There are no medicinal springs, and the only medical institutions in the State are the Wichita Medical College at Wichita, and a preparatory college located at Lawrence.

MEDICAL LAWS OF KANSAS.

In 1879, an act to regulate the practice of medicine in Kansas was passed, which authorized the Kansas Medical Society, the Eclectic Medical Society of the State of Kansas, and the Homœopathic State Medical Society, each, to appoint a board of examiners. These boards were empowered to grant certificates to those presenting diplomas duly authenticated, as well as to those passing an examination by either one of the boards; and such certificates were conclusive as to the right of the recipients to practice in the State.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 161 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

KENTUCKY.

CAPITAL, FRANKFORT.

POPULATION, 1,648,690.

(Census of 1880.)

Males	832,590	Native.....	1,589,173
Females.....	816,100	Foreign.....	59,517
White.....	1,377,179	Chinese.....	10
Colored.....	271,451	Indians.....	50

Kentucky extends from 36° 30' to 39° 06' north latitude, and from 82° 06' to 89° 44' west longitude and is bounded on the north by Ohio, Illinois and Indiana, on the west by Missouri, on the south by Tennessee, and on the east by Virginia and West Virginia. The State comprises an area of 37,480 square miles, or 23,987,200 acres. It has a river boundary of 813 miles, its northern border being washed by the Ohio, its eastern by the Big Sandy or Chattaroi, and its western by the Mississippi ; nearly all the other rivers which drain the State are affluents of the Ohio.

The climate here, as in all parts of the United States, is variable, but in Kentucky is marked by no unhealthy extremes, the mean annual temperature being 55° F, that of the summer 73.96°, and of the winter 38°. The average annual rainfall along the Ohio river is about 48 inches and in the southern extremity 60 inches.

Coal and iron abound, and a large portion of the State is covered by primitive forests of deciduous trees. The soil is extremely fertile and productive, all the crops of the Mississippi valley flourishing here, with the exception of the sugar cane. Corn and tobacco are the staples, and the former is largely used in the manufacture of the celebrated Kentucky whiskey, which is one of the principal exports.

The blooded horses of Kentucky have a national reputation.

The following table shows increase in population for 60 years :

1820	564,135	1860.....	1,155,684
1830.....	687,917	1870.....	1,321,011
1840.....	779,828	1880.....	1,648,690
1850.....	982,405		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 5,328 ; capital invested, \$45,813,039; number of hands employed, 37,391; total wages paid during the year, \$11,657,844; value of materials, \$47,461,890; value of products, \$75,483,377.

The following is a list of the medical colleges in Kentucky :

- University of Louisville Medical Department, Louisville.
- Kentucky School of Medicine, Louisville.
- Louisville Medical College, Louisville.
- Hospital College of Medicine, Louisville.
- There are numerous medicinal springs in the State.

MEDICAL LAWS OF KENTUCKY.

KENTUCKY'S AMENDED EMPIRICISM LAW.

SECTION 1. *Be it enacted by the General Assembly of the Commonwealth of Kentucky,* That an act, entitled "An act to protect the citizens of this commonwealth from empiricism," approved February 23, 1874, be so amended as to provide that it shall be the duty of the county clerk of each county to purchase a book of suitable size, to be known as the "Medical Register" of the county, and to set apart one full page for the registration of each physician; and when any physician shall depart this life or remove from the county, he shall make a note of the same at the bottom of the page; and said clerk shall (on the first day of January in each year) transmit to the office of the State Board of Health a duly certified list of the physicians of such county, registered under this act, together with such other information as is hereinafter required, and perform such other duties as are required by this act, and such clerk shall receive the sum of fifty cents from each physician so registered, which shall be his full compensation for all duties required under this act.

2. That on and after the first day of April, 1889, it shall be unlawful for any person to practice medicine in any of its branches within the limits of this State who has not exhibited and registered in the county clerk's office of the county where he is practicing or intends to commence the practice of medicine his authority for so practicing medicine as prescribed in this act, the name and location of the college issuing the same if it be a diploma, the date of same, together with his age, residence, place of birth and the school or system of medicine to which he professes to belong. The person so registering shall subscribe and verify by oath before such clerk an affidavit containing such facts, and that he is the person named in the authority so registered, which, if wilfully false, shall subject the affiant to conviction and punishment for perjury.

3. That authority to practice medicine under this act shall be: (a) A diploma from a medical school legally chartered under the laws of this State. (b) A diploma from a reputable and legally chartered medical school of some other State or country, certified and endorsed as such by the faculty of a legally chartered medical school in this State, or (a legally incorporated) State Medical Society. (c) An affidavit from the person claiming the same that such person is exempted from obtaining a diploma under section two of the act to which this is an amendment, and stating where he has so practiced: *Provided*, That no college shall charge or receive more than one dollar for the certificate and endorsement required by this section.

4. That nothing in this act shall be so construed as to discriminate against any peculiar system or school of medicine, or to prohibit women from practicing midwifery, or to prohibit gratuitous services in case of emergency, nor shall this act apply to commissioned surgeons of the United States army, navy, or Marine Hospital service.

5. That sections three, four, five, six and seven of the act to which this is an amendment, and any portion of other sections of said act in conflict with the provisions of this act, are hereby repealed, and that section eight of said act is hereby reaffirmed and made a part of this act.

6. Nothing in this act shall be construed to limit the period for which a certificate may run, issued in pursuance of section eight (seven) of the act to which this is an amendment, but said certificate may run the full period for which it was issued.

7. This act to take effect from and after its passage.

Approved April 25, 1888.

Following will be found the portions of the original act still in force:

SECTION 1. *Be it enacted by the General Assembly of the Commonwealth of Kentucky,* That it shall be unlawful for any person, for reward or compensation, within the limits of the State, to practice medicine in any of its departments, or to prescribe, or to attempt to prescribe, medicine for any sick person, or perform or attempt to perform any surgical operation upon any person within said limits, who has not graduated at some chartered school of medicine in this or some foreign country. * * * * *

2. Any person who has been regularly and honorably engaged in the practice of medicine in any of its departments for ten years shall be deemed to have complied with the provisions of this act. Any person having been so engaged for five years will be allowed one year to comply with its provisions. * * * * *

8. Any person living in this State, or any person coming into this State, who shall practice medicine or attempt to practice medicine, in any of its departments or who shall perform or attempt to perform any surgical operation for or upon any person within the limits of this State, for reward or compensation, in violation of the provisions of this act, shall, upon conviction thereof, be fined fifty dollars, and upon each and every subsequent conviction shall be fined one hundred dollars and imprisoned thirty days, or either, or both, in the discretion of the jury; and in no case, where any provision of this act has been violated, shall the person so violating be entitled to receive compensation for services rendered.

9. *Provided*, That nothing herein shall be so construed as to apply to persons practicing dentistry.

10. This act shall be in force from its passage.

Approved February 23, 1874.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.
